### See Sub Sunk After Battle

HOBOKEN, N.J., (AP)—Passengers arriving on the United States cargo liner Steel Mariner today told of a death fight between a British destroyer and a German submarine just off the British coast, which ended, they said, in the U-boat's being sunk with loss of its entire crew.

Captain Frederick Pickering, the freighter's master, said the submarine, apparently unable to submerge, had been disguised as a fishing boat.

During the afternoon of September 11, shortly after the Steel Mariner had sailed from Avonmouth, England, the Captain said he sighted a "strange-looking craft going across the bow."

"One of my officers said it looked like a submarine in disguise. You could see the periscope."

Then those on the freighter saw smoke on the horizon, and identified it as coming from a British destroyer. Flashes of gunfire followed as the Steel Mariner's passengers and officers watched the battle through glasses.

"The fight lasted for 10 minutes. The destroyer sank the U-boat, and that was that," the captain said.

### 3 GERMAN SHIPS TRY CARGO DASH

PERNAMBUCO, Brazil (AP)—Three German ships, including the fast Hamburg-South American liner Cap Norte, have sailed from Pernambuco, carrying large cargoes of foodstuffs and petroleum products.

Their destinations were not announced, but shipping circles understood they would try to reach Vladivostok, Soviet Russia's Far Eastern port. Such an attempt could be made either via the Panama Canal or around Cape Horn.

Local companies declined to supply the ships with fine fuel oils such as are used by submarines. However, the Cap Norte carried about 2,500 tons of crude oil.

Besides the 13,615-ton Cap Norte, the vessels are the 5,913-ton Tijuca and the 4,969-ton Curitiba.

## War Summary

### WATCHING DUTCH FRONT

While the Western Front remained comparatively quiet today, London reported British and French high commands keeping watch on German entrenchments and troop concentrations on the Netherlands frontier.

The Germans are hastily digging trenches along the Netherlands border north of their Siegfried Line and the British and French military authorities do not know the reason.

German troops are concentrating behind these fortifications. It may be a purely defensive movement by the German high command, which so far has made no move to indicate a real reason.

### ANOTHER WEEK OF WAR

Looking back on the last week, military authorities here have noted these features:

1. While Poland has been overrun by the German and Russian armies, the Germans will be kept busy a long time yet before the country is conquered.

2. There is no indication that Germany feels safe in transferring troops from the east to west fronts to move against the French.

3. The Poles have destroyed some oil wells, which fell into German hands; it is believed Russia has gobbled up the biggest producing field southeast of Lwow.

### WEATHER WITH NAZI

Before Stalin ordered his Red Army to advance into Eastern Poland, the Poles were attempting to hold the line of the Vistula and Bug Rivers eventually to make a last ditch stand in the southeast along the Dniester River.

This general retreat south and southeasterly was designed to hold open communications with Rumania and so to get supplies.

Three factors made this general movement almost an impossibility. First, was the dry summer, permitting the German mechanized armies to push on incredible distances. Second, Germany's superiority in the air and her constant bombardment of

### R.A.F. Downs Its First Nazi

LONDON (AP)—The Ministry of Information today described a victory for Royal Air Force planes on the western front for the first time in the second Great War.

A communique issued by the ministry said that "during the course of air operations on Wednesday, September 20, one German fighter was shot down by our aircraft in France."

This was the first official intimation that British planes on the western front had taken the offensive in anything more than reconnaissance flights.

### SMYRNA QUAKE DEATH TOLL BIG

ISTANBUL, Turkey (AP)—A heavy toll of lives and property was taken by an earthquake today at Smyrna, reports received here said.

The Pergame, Ketchik and Fatcha districts were said to be the hardest hit, with more than two-thirds of the number of buildings there destroyed.

Smyrna (Izmir) a city of 190,000 population, is on the Gulf of Smyrna, which opens into the Aegean Sea. It is the most important city in Asia Minor and one of the principal ports on the Turkish Republic.

### AIR COMMAND MOVES TO CITY

Headquarters of the Western Air Command will be moved from Vancouver to Victoria, it was learned at Military Headquarters this morning.

The air command has rented the top floor of the Belmont Building, and will shortly move into its new quarters.

The Air Force offices are at present located in the Federal Building, Vancouver, under Air Commodore Johnson.

Removal of the Air Headquarters to Victoria will put the offices of all three services in and around the capital. Both military and naval headquarters are already located here.

Polish troop concentrations. Third, lack of communications over a long and haphazard front, was complicated by the German air offensives against the Polish headquarters.

When the Russian armies advanced, Polish resistance collapsed like a house of cards. The Poles could not fight on two fronts, especially when struck in the back when facing as imposing a military machine as the German army. The Red army has had practically a walk over.

### LESSON FROM POLAND

What really defeated Poland was the speed of the German advance. The Germans demonstrated, among other things, how an air force can shatter and demoralize troop concentrations and how necessary anti-aircraft guns are in the general military picture.

German medium bombers were used in attacking troop concentrations and as protective screens for tanks. The Poles demonstrated tanks could be stopped with ease when not accompanied by aircraft.

Whether Germany will attempt to use combined operations between tanks and planes on the west front remains to be seen, but conditions there are vastly different from Poland.

Unofficial reports reaching London indicate Germany used 1,000 planes against Poland, giving her a vast superiority, especially in view of Poland's inadequate supply of anti-aircraft guns.

### GAMELIN TAKES NOTE

So far General Maurice Gamelin, the French commander-in-chief, has adopted methodical tactics on one western front, refusing to sacrifice men in vain attempts to storm German positions, such as happened on the Somme and in Flanders in the last war.

Taking a lesson from the Polish defeat, the French seem to be concentrating anti-aircraft batteries along their front so as to minimize German attempts to attack their concentrations behind the lines.

# Sub Sighted Off B.C. Coast, U.S. Navy 'Takes Steps'; Mass Executions in Rumania

## Radio Calls Intercepted to Ship 'Portland'

### CANADIAN NAVY INFORMED

Canadian naval authorities have the information disclosed by President Roosevelt that an unidentified submarine has been seen off Alaska, near the northern B.C. coast, the Esquimalt naval yard said today.

Naval authorities said that necessary steps are being taken, but beyond that would make no comment on the President's disclosure.

United States coastguard cutters have rushed to the scene.

### UP NEAR FISH BOAT

KETCHIKAN, Alaska (AP)—Evertson Hudson, Metlakatla Indian fisherman arriving today, said he sighted an unidentified submarine, surfaced, which was proceeding southward and drew abreast of his seine boat near Whidby Point, Prince of Wales Island.

Hudson said that when the craft drew abreast his own vessel, and was about three-quarters of a mile away, it gradually submerged until only its periscope was visible under six-power field glasses.

Hudson said four companions also saw the submarine.

### ON CHIEF TRAFFIC LANE

Hudson said the underwater ship was sighted in the middle of Clarence Strait, between Gravina and Prince of Wales Islands, about two miles north of the Punch Hill radio beam station on Gravina, about 15 miles from Ketchikan, and probably 56 miles north of the British Columbia boundary.

Virtually all Alaska shipping uses Tongass Narrows on the opposite side of Gravina Island, entering Clarence Strait several miles north of where Hudson said he saw the craft.

### COASTGUARD IN ACTION

Federal authorities here declined to comment on President Roosevelt's announcement a foreign submarine had been sighted off southern Alaska, but two United States coastguard cutters were known to have made an unexplained cruise toward Metlakatla yesterday.

The Ketchikan Chronicle said it was understood Indians there sighted what they thought was a submarine, about 10 miles from here, three days ago.

The newspaper said it was reported the craft was in American water, a few miles from the British Columbia boundary. It said there were unverified rumors a fishing boat crew had reported sighting a submarine in this vicinity, too.

### SEQUEL TO PORTLAND

ABERDEEN, Wash. (AP)—The Aberdeen World said today it had learned from a reliable source the United States navy department was informed two weeks ago that a foreign submarine was off the Pacific Coast.

Shortly after the German freighter and passenger motorship Portland had left Puget Sound—she has not been reported since—radio calls identified as those of a German U-boat were heard "somewhere offshore" by a harbor radio station which notified the U.S. navy, the paper said, adding that the submarine apparently was attempting to reach the Portland.

### CALL LETTERS IDENTIFIED

The signals, the paper said, came in loudly, indicating to radio operators that the submarine was 50 to 75 miles off the Washington coast. However, the station intercepting the call letters has a long range and the sub may have been a much greater distance away, it continued.

While the signals were clear and easily identified, they were of short duration, so short it was impossible to get a bearing on the sub's position.

Radio operators said they heard the call letters clearly and that it was identified as that of a German submarine in the official list of call letters. The paper said the calls were "too authentic" to admit possibility of mistake.

Roosevelt announced Washington (AP)—President Roosevelt disclosed today that submarines had been sighted in the New England waters followed four separate reports by fishermen that they had seen underwater craft in the region, and one report of an airplane flying over the fishing grounds off Cape Cod.

Naval officers termed "just a

part of the exercises" a sudden and brief dash to sea late yesterday by the destroyer Leary. The Leary is part of the neutrality patrol.

## Turkey Expects Mutual Aid Pact With Russia

ISTANBUL (AP)—Authoritative sources said today that a Turkish-Soviet Russian mutual assistance pact would be concluded by Foreign Minister Sukru Saracoglu, now en route to Moscow.

They said the projected treaty was expected to reinforce strongly Turkey's position in the Dardanelles and to assure safeguarding the Balkans from invasion by an "unfriendly power."

It was asserted that if Turkey and Russia succeeded in reaching a pact, Turkey possibly would have a good opportunity of attempting to bring Russia together with Great Britain and France. Some sources thought therefore that Saracoglu while in Moscow might attempt to effect a reconciliation between them.

## Victoria Units On Coast Defence

Victoria militia and military units will all be required for fortress defence of the coast, and will not form part of the first division that Ottawa is organizing for a possible expeditionary force, it is understood here.

The Seaforth and Westminister regiments in Vancouver are reported to be listed for inclusion in the first division, but this does not apply to the Victoria units.

None of the local units are up to the full strength required for coast defence and recruiting is still going ahead, military headquarters said today.

About 100 recruits a day are coming in for the province as a whole and military officials are urging that it be speeded up.

In Victoria the Coast Brigade Artillery needs about 100 men and both of the Canadian-Scottish units are only at about 50 per cent peacetime strength and 25 per cent wartime strength, Brigadier J. C. Stewart said this morning.

In connection with the Ottawa announcement saying that skilled men will not be taken into the ranks, the Brigadier explained that graduates of the Royal Military College or the Canadian Officers' Training Corps, or others with artificers training who present themselves for enlistment will not be refused. The provision, however, is that instead of being taken on by local commanding officers they should be referred to district headquarters where they can be fitted into units in which their training can be used to best advantage.

### WHOSE?

Someone wanted to know whether the subsurface craft might be Canadian. Again the President laughed and declared they might be Bolivian or Afghan.

But he remarked to correspondents they might get the identity if they kept on questioning. To some persons this indicated the United States government probably had an idea of the nation in whose service the submarines were operating.

An official of the U.S. Maritime Commission said, without elaborating on the President's remarks that the maritime commission would continue to report the sighting of submarines by vessels under its jurisdiction.

He added, however, that it planned no other action. "It doesn't seem to come under our jurisdiction," he said. "Our reporting of submarines merely is for the information of the President and government departments."

### OFF NEW ENGLAND, TOO

BOSTON (AP)—President Roosevelt's announcement today that submarines had been sighted in the New England waters followed four separate reports by fishermen that they had seen underwater craft in the region, and one report of an airplane flying over the fishing grounds off Cape Cod.

Naval officers termed "just a

## 2 Ocean Ships Collide Off Straits Entrance

SEATTLE (AP)—United States coastguard headquarters said the motorships Lochmonar and Pacific Grove collided off the north Washington coast and that the cutter Redwing had been dispatched from Port Angeles, Wash.

The Pacific Grove wireless said she was taking water in her No. 2 hold, but was proceeding.

The damage to the Lochmonar was not reported immediately. The Merchants' Exchange identified both as British ships.

Both motorships have capacity for 12 passengers.

The Pacific Grove, a Furness Line freighter, was built at Kiel, Germany, in 1928. She is of 7,117 gross tons and 4,290 net tonnage. The Royal Mail liner Lochmonar, built at Belfast in 1924, is of 9,412 gross and 5,815 net tonnage.

Foggy weather was reported.

The coastguard sent the Redwing after intercepting a distress call from one of the ships addressed to Vancouver, B.C.

Agents here said the Lochmonar had no passengers. The Pacific Grove's agents said they were uninformed whether she had passengers aboard.

VANCOUVER (CP)—Furness Pacific Limited, agents for the British freighter Pacific Grove, said this afternoon the motorship was moving "apparently under her own power" after being involved in a collision with another British freighter, the Lochmonar.

## War Council Meets

LONDON (CP)—Two "urgent meetings" of the Supreme War Council were held here today.

It was the second gathering of the council. The first took place "somewhere in France" on September 12.

Those attending included Prime Minister Chamberlain, Viscount Halifax and Lord Chalford for Great Britain; Premier Daladier, General Gamelin and Admiral Darlan of France.

"The supreme war council considered the question of munitions and supplies and agreement was reached on procedure for co-ordinating and perfecting the arrangements to be made by the two governments."

## 'First War Phase Over, Allies Grow Stronger'

PARIS (AP)—The French government said tonight "the first phase of the war was ended" with Poland subjected, but with the Allies in a stronger position to battle Germany.

Jean Giraudoux, general commissioner of information, declared in a broadcast Germany had lost heavily in the invasion of Poland, while the western front had been thrust into German territory.

Contrasting the conquest of Poland with Germany's bloodless seizures of Austria and Czechoslovakia, Giraudoux said: "Germany no longer faces peace, but a war of which she has lost command."

## FALL BEGINS

Fall begins officially at 2.50 p.m. Pacific Standard Time Saturday. At that instant the sun will be passing over the earth's equator on its southward journey, which brings autumn to the northern hemisphere.

September 23, too, is the day when the moon passes the ruddy planet Mars in the sky. This passing will occur at 5 minutes after midnight Pacific Standard Time.

## New Government Swift to Avenge Assassination

By LLOYD LEHRBRAS  
BUCHAREST (AP)—Thousands were reported executed today as Rumania's new government exacted a heavy blood-price for the assassination of Premier Armand Calinescu.

Reliable sources said thousands of members of the outlawed Iron Guard had been taken from concentration camps throughout the country and shot to death to avenge yesterday's killing of the Premier, who was an implacable foe of the guard.

### WOMEN ALSO

These sources also said that some women had been shot.

It was announced officially 44 Iron Guardists were executed at the Merikurea-Cluk concentration camp, while 32 were shot by firing squads at Prahova.

Mass executions were said to be continuing. Reliable sources said a minimum of three Iron Guard members were being taken from each of Rumania's 72 administrative districts for the firing squads.

### 'TOUGH' GENERAL

The whirlwind clean-up of alleged pro-Nazi elements was pushed also with widespread arrests by the quick-acting government.

At the head of the ministry stood General George Argeanu, "tough disciplinarian" of 56 and a friend of Calinescu. Observers expected Argeanu to follow Calinescu's advocacy of closer Rumanian economic co-operation with Great Britain and France.

Rumanians watched the situation nervously as Germany, who wants Rumanian oil, and Soviet Russia, who seeks former Russian territory a part of Rumania, drove their troops further into Poland north of Rumania.

### BODIES IN STREETS

Hundreds of arrests were being made throughout Rumania and one of the questions raiding officers were seeking to answer was whether it was more than coincidence that Calinescu was slain while German and Russian troops were moving in the north.

Blood-spattered bodies sprawled awkwardly in one of Bucharest's streets in vengeance for Calinescu's assassination yesterday.

Around the roped-off, oblong area, under a dreary sky, hawkers were selling cakes and beer and cold drinks to a wide-eyed stream of Rumanians come to see an object lesson in swift Balkan punishment.

A banner nearby carried the words: "Such will be the fate of all assassins and traitors of the country."

### ALL YOUTHS

All the dead had the young faces and youthful figures of college students.

Perhaps somewhere in the crowd stood some of their parents or other relatives—but no one attempted to claim their dead.

Seven of those whose bodies were sprawled in the great dark stains of dried blood were allegedly members of the Iron Guard.

Police transported them at 11 p.m. last night to the spot where they were charged with ambushing and killing Calinescu.

The bodies of two others who police said had killed themselves when troops surrounded the house in which they had taken refuge were carted to the scene and dumped on the asphalt avenue.

### SLAIN WITH OWN REVOLVERS

The seven prisoners, terror shining in their eyes, were stood in a line nearby.

A small crowd gathered on the

sidewalk . . . clouds obscured the moon . . . only flickering street-lamps lighted the strange midnight scene.

Uniformed executioners walked behind each straining figure silhouetted in the fantastic light.

Then, using the alleged assassins' own revolvers, each executioner thrust his weapon behind a man's ear and pulled the trigger.

Seven muffled explosions sounded; seven bodies dropped to the asphalt and lay in widening pools of red.

Police quickly roped off an oblong area enclosing the nine bodies and a neatly-lettered warning to others with possible anti-government ideas was hung nearby.

All through the night, men, women and children came to the scene and today the stream of humanity continued. The authorities announced the bodies would remain in the street until midnight tonight (3 p.m., P.S.T.).

### NEW PREMIER NAMED

In a trembling voice, King Carol read to the crown council last night the testament in which the assassinated premier begged his son to think of the "honorable name I inherited from my father" and asked that his body be carried "in a peasant cart drawn by six oxen" to a tomb beside that of his father at Arges.

King Carol named a new government within eight hours.

General George Argeanu, the new premier, had been war minister in a previous cabinet.

The Minister of Interior, in charge of the nation's police, was given to General Ion Ilcu, close personal friend of the King. General Gabriel Marinescu, known as a bitter opponent of the Iron Guard and as a friend of France and Great Britain, took over the vital post of war minister.

### LAWYER HEADED ASSASSINS

Officials issued a list of those killed in the plot. It was headed by the name of Domitro Dumitrescu, a lawyer said to have succeeded Corneliu Zelea Codreanu as Iron Guard leader after Codreanu was killed last December 1 in what officials said was an attempted break from Rumnik-Sarat Prison.

The announcement said Dumitrescu took part in a terrorist plot last January to overthrow the Rumanian government and kill Calinescu, then minister of interior, who was blamed by the Iron Guard for the death of Codreanu and 13 of his followers.

Dumitrescu escaped and fled to Czechoslovakia, the announcement said, after hiding guns and ammunition in the homes of associates.

### ORGANIZED KILLING

It said he returned secretly from the Ukraine six weeks ago to organize nine friends in a secret Iron Guard assassination band which reclaimed the hidden arsenal.

Dumitrescu, the announcement said, carefully planned the killing of the premier and led the shooting himself.

Following the new government's first cabinet meeting the proclamation was issued warning that "ruthless measures" would be taken to maintain order and that Rumania was determined to continue its policy of "strict neutrality" in the present conflict.

## Ottawa Moves Step Up Tempo Of War Effort

By NORMAN MacLEOD

OTTAWA—Federal reaction to the current cabinet shuffle, plus the government's decision to train and equip an overseas force, is that these two events mark another advance in the tempo of Canada's war effort.

Wording of the expeditionary force announcement is regarded as significant, as it was taken, according to the Prime Minister's statement, "in view of intimations recently received from the United Kingdom."

This language bears out the understanding on Parliament Hill since the war started that Canada had offered an expeditionary force to the British government but had been asked to hold such action in abeyance. The time when the British government wants overseas troops apparently has come now—with the result that Canada is answering the call instantly and without any reservation. At the same time the government is keeping scrupulously to its pledge that any expeditionary force shall be wholly voluntary. Recruits enlisted when the only obligation they signed up for was home service are being retested if they now desire to go overseas.

### CONFIDENCE IN ROGERS

The shuffle of cabinet portfolios recaptures Hon. Norman MacLeod Rogers for the national spotlight under flattering circumstances. When Prime Minister King

formed his government in 1935 the most urgent problem was unemployment. He commissioned Mr. Rogers to deal with it. Now war is the chief problem and it is into Mr. Rogers' hands that Mr. King entrusts it.

Mr. Rogers has a distinguished record of active service in the last war. As a cabinet minister since 1935 he has demonstrated indefatigable industry, capacity and judgment. That his accession to the portfolio of national defence will enhance public confidence in that department is regarded in federal circles as beyond question.

### BAD NEWS FOR PROFITEERS

The shuffle of portfolios is also significant so far as Mr. McLarty is concerned. The former Postmaster General and new Minister of Labor is a lawyer of ability. The portfolio of labor calls particularly for legal ability on only one presumption which must be obvious, namely, that a rigid enforcement of the anti-combine laws which constitute a major part of the Dominion's anti-profiteering legislation is intended. Mr. McLarty's shift to the Department of Labor is bad news for any interests dealing in the necessities of life that may be ambitious to take advantage of wartime conditions to profiteer.

## Artillery Duels On West Front

PARIS (CP-Havas)—The western front was calm today, the French command announced in tonight's communiqué.

"The day was calm along the entire front," the statement said. "Our naval forces continue to insure efficient protection for our convoys and pursue enemy submarines."

PARIS (AP)—A new drive against the German industrial city of Saarbrücken was reported today by the French general staff.

A military communiqué this forenoon said artillery on both sides was active along the entire front—from the Moselle River along the Luxembourg-Germany frontier to the Rhine River, which becomes the boundary between France and Germany 100 miles to the southeast.

The French empire's black Senegalese troops were reported en route to the western front in the war which Premier Daladier declared yesterday would end German attempts at "world domination."

Sharpshooters mobilized from France's colonial reservoir of manpower were said to be moving up the west coast of Africa in guarded transports.

Observers saw indications in Daladier's world broadcast speech last night that France and Great Britain may wage a "defensive" war—at least on the land.

The Premier's speech, accepting Adolf Hitler's statements at Danzig as a challenge for a fight to the finish, pictured Allied commanders as profiting from experience with mass attacks in the last war.

He said the commanders "have known how to avoid unconsidered and 'murderous' offensives."

This was taken by some to indicate that large scale offensives of the last war "big push" type would not be launched and that emphasis would be laid on air, planes and a naval blockade to sap Germany's strength gradually.

Some military experts have said this form of warfare fitted modern conditions and that "steam roller" tactics are out of date.

No major German offensive in the west is expected before next month. It would take that long to complete the mopping up process in Poland, observers said.

M. Daladier said in his broadcast message partition of Poland between Germany and Soviet Russia was planned secretly long in advance.

## Nazi Leaders Reported to Have Cached Millions

LONDON (CP)—G. Ward Price, foreign affairs writer for the Daily Mail, today charged Nazi chiefs have lived luxuriously on the proceeds of Winterhilfe (winter help) contributions, ostensibly gathered to aid the poor.

"Collections go on almost permanently throughout Germany," he wrote, "for 'winterhilfe.' Burly young storm troopers rattle their money boxes in public places and make the rounds of cafes and restaurants."

"Few Germans venture to decline to contribute a few small coins. There is also a system of selling lottery envelopes. They cost sixpence, and some of them are supposed to contain a bonus for the cheerful giver, although I have never seen anyone draw a winner at this game."

"No accounts of allocations of 'winterhilfe' are published and the Germans often whisper among themselves that this is one of the main sources of the luxury in which Nazi chiefs and their families live."

### ALL BOAST VILLAS

"None of them, with the exception of Herr (Foreign Minister Joachim) von Ribbentrop and Dr. (Otto) Dietrich, head of the press service is a man of private fortune—yet all have town houses and country villas."

(Published reports have alleged that enormous sums in cash or equivalent have been deposited by Nazi leaders to their own accounts in financial institutions outside of Germany. Big personal and family insurance policies were also described.)

(One published report gave the following list:

(Von Ribbentrop—\$3,165,000 in cash or equivalent outside Germany. Family insurance of \$6,575,000.

(Propaganda Minister Joseph Goebbels—\$4,635,000 in cash or equivalent outside Germany. Life insurance of \$2,490,000 on his wife's life and \$1,865,000 on his own.

(Field Marshal Herman Goering—\$3,575,000 in cash and securities abroad. Insurance of \$3,025,000.

(Deputy Party Leader Rudolf Hess—\$2,045,000 in cash and securities abroad. Insurance of \$1,962,000.

(Chief of Secret Police Heinrich Himmler—\$2,000,000 in cash and securities in foreign countries. Life insurance abroad of \$637,000.

(Labor Front Leader Robert Ley—\$1,050,000 cash and securities. Foreign insurance policies—\$841,000.)

### STOCK MANIPULATIONS

The Ward Price article continued:

"It comes as a surprise to me to find the names of Hess and Himmler in the list of Reich ministers credited with having accumulated fortunes outside Germany."

"Both of them, to the best of my knowledge, live on a comparatively small scale. There is some reason to believe that they may have used their inside information to carry out stock exchange operations in foreign capitals."

"The tone of a Hitler speech has often had a marked effect on Wall Street operations, and anyone in a position to know in advance the line he was about to take could certainly have speculated to advantage."

The diplomatic correspondent of the London Daily Telegraph and the Morning Post (Conservative) gave some details of reputed private fortunes of Nazi chiefs.

"Field Marshal Goering's insurance," he wrote, "totaling \$786,000 (\$3,474,120 out of a fortune held abroad of \$1,501,400, were transacted through foreign representatives by one of the directors of Jaugh, Hubener and Company, whose address is 28 Budastrasse, Berlin."

### ONE DEAD; ONE JAILED

"Dr. Ley, leader of the Labor Front and high priest of the 'Strength Through Joy' movement, employed as one of his agents, Franz Hersemann of Berlin, a member of his personal staff with good contacts in German circles in San Francisco, in exporting the equivalent of \$143,000 derived from the movement."

"These agents seem to have fallen by the wayside. It is reported that one was beheaded and that the other is now in a concentration camp."

"Field Marshal Goering's insurances were taken out in Switzerland, Holland, Sweden and the United States as follows: 1,000,000 Swiss francs (\$227,200), 400,000 United States dollars, 3,500,000 Dutch guilders (\$1,866,700) and 1,500,000 Swedish kroners (\$360,000).

1306 DOUGLAS STREET

## U.S. Senators Line Up for Embargo Fight

WASHINGTON (AP)—Two determined senatorial factions began digging in today for a conclusive battle over President Roosevelt's renewed appeal to scrap the United States arms embargo and substitute a "cash and carry" system under international law.

Led by 73-year-old Hiram Johnson, Republican, California, 24 senators quickly organized a bloc to oppose the sale of arms to warring nations, on the ground that it would be likely to force the United States into the European conflict.

Senator R. M. La Follette, Progressive, Wisconsin, speaking for the group, said it would fight repeal of the embargo "from hell to breakfast." Senator Patrick McCarran, Democrat, Nevada, added the opponents believed they now could muster 35 or 37 votes and hoped to increase their strength during debate.

On the other hand, confidence of ultimate victory was expressed by supporters of the President, who included some Republicans and "old line" Democrats as well as New Dealers.

Hailing Mr. Roosevelt's solemn speech to Congress yesterday as charting the safest course for the United States in the present emergency, they arranged strategy conferences.

Their aim, leaders said, is to limit the session to neutrality revision, obtain action in two or three weeks, and adjourn. Senate and House of Representatives leaders of both parties would stay here, at the President's request, to consult with him on policy until the regular session begins in January.

At his press conference today Mr. Roosevelt reported he had received a big stack of telegrams about his address to Congress, but had personally seen only 40 or 50, sent by governors and personal friends.

Newsman asked the President whether he knew, as some reports had it, that Congressmen were receiving an increasing volume of correspondence opposing his proposal for repeal of the arms embargo.

Replying affirmatively, he referred to a secretary, Stephen Early, a question about sentiment expressed in telegrams to the White House.

With the Senate and House in recess until Monday, the Senate foreign relations committee will begin a study of the President's recommendations tomorrow.

## Youth Saves Mother From Drowning

NANAIMO (CP)—Dorothy Mossell, 24, former resident of New Westminster, today was credited with saving her mother from drowning yesterday in the Gulf of Georgia near here.

Mr. and Mrs. Mossell, their son and a Miss Anthony were being towed in their rowboat by Len Frances of Nanaimo when Mrs. Mossell overbalanced as she attempted to retrieve Dorothy's hat, which had blown off.

She fell partly into the water and her husband, unable to pull her back, released her while the son jumped into the water and kept her afloat until Frances turned his launch around and came to their aid.

## Alberta May Grade Gasoline

CALGARY (CP)—Prof. Edgar Stanfield of the University of Alberta told the McGillivray Royal Commission the Alberta provincial government has under consideration a system whereby all gasoline and fuel oil sold in the province will be standardized.

The petroleum products will be sold to motorists and farmers under various brand classifications, determined by a schedule of specifications, he said. He added that he did not believe standardization would be put into effect until government authorities has consulted the oil industry.

The professor of industrial research said the provincial department of trade and industry has installed an octane rating machine at the university. A series of tests would be conducted to determine the proper specifications which should be insisted upon as the minimum quality requirements of various brands of Alberta gasoline and fuel oil.

### TEST POOR GAS

Tests would quickly determine whether the Alberta public is being victimized through sale of poor gasoline represented as first-class gasoline, said Prof. Stanfield. Tests also would show whether there was any general dilution of gasoline in dealers' storage tanks or substitution of superior gasoline with a inferior product.

If it were found the public is not being victimized, there would be no hurry about introducing standardization legislation, Prof. Stanfield believed.

Under the plan, gasoline and fuel oil would be graded just as eggs and various other commodities are graded in Alberta at the present time.

Standardization of gasoline grades in British Columbia is already in force, Attorney-Gen.

## 'Boon to Mankind,' Churchill Hails Nazi-Soviet Pact

NEW YORK—Winston Churchill, First Lord of the Admiralty in Great Britain's new war cabinet, believes that the Soviet-Nazi pact involves certain definite gains for the democracies, he says today in a signed article in Collier's in which he outlines possible effects of the famous surprise agreement on the war situation.

"The longer the view we take of this astounding event," he says, in his statement cabled to Collier's from London, "the more must we rate it as a grand advantage to mankind. It has, at a single stroke, stripped Russian Communism and Nazi anti-Communism of their whole theme; of their credentials, of their means of appealing to the mind and spirit of man. Instead of two powerful and, to certain types of mind, captivating philosophies, we have a couple of sets of rival gangsters joining forces in a jam, pooling their luck and trying to shoot their way out with any loot they can carry through the G-men of civilization."

"I have never considered Italian Fascism as on the same plane as Nazism, and everyone has been struck by the great deterioration in the position of Italy that has followed from the violent expansion of Germany in the north. This is no moment to make predictions that may be falsified by the time they are in print, but one cannot doubt that the whole basis of the ideological association between Berlin and Rome has been destroyed and that neither sentiment nor interest unites the axis powers."

"The western democracies have gained one easement in the Far East and the possibilities of another in the Mediterranean."

In discussing the resemblances and the differences between Nazism and Bolshevism, Mr.

**Zeppelin Russian Links**  
COPENHAGEN (AP)—The newspaper Berlingski Aftenavis today published a report from Moscow that German zeppelin experts were going to the Soviet capital to negotiate for zeppelin communications with Siberia whereby Germany would be supplied with important raw materials.

## Royal Air Force Reports Casualties

LONDON (CP)—In the Ministry of Information's first official casualty list, one member of the Royal Air Force is identified as missing and believed killed, three others as missing and believed prisoners of war and 13 as missing.

The list follows:  
Missing, believed killed—Aircraftsman (second class) K. G. Day.

Missing, believed prisoners of war—Sergeant G. F. Booth; Pilot Officer L. H. Edwards; Aircraftsman (second class) J. Slattery; Missing—Flight Lieutenant W. F. Barton; Aircraftsman (first class) J. T. Brockington; Leading Aircraftsman H. Dore; Flying Officer H. M. Embury; Sergeant D. E. Jarvis; Aircraftsman (first class) E. W. Lyon; Sergeant A. S. Prince; Leading Aircraftsman J. Quilter; Corporal J. L. Ricketts; Flying Officer J. F. Ross; Aircraftsman (first class) G. Sheffield; Acting Sergeant B. G. Walton.

The official list supplies nothing more than names and ranks. As addresses are not given, it is not known whether any were Canadians.

**RICHTHOFFEN KILLED**  
BERLIN (AP)—Capt. Wolfgang Richthofen, a distant relative of the first Great War ace, Baron Manfred von Richthofen, has been killed in action in Poland.

Churchill compares them to the North and South Poles. "If you woke up one morning at either, you would not know which it was."

## Report Shows Hitler Would Not Negotiate

LONDON (AP)—The British government in a 195-page blue book of documents on the pre-war crisis of 1939, quotes Reichsfuehrer Hitler as pledging he would "settle down" once the Polish question was settled and as warning that Japan would be "the only winner in another European war."

Documents in the book range all the way from a first-hand account of Hitler's August bid for an alliance with Great Britain at the expense of Poland to a description by Sir Neville Henderson, then British ambassador to Berlin, of Field Marshal Hermann Wilhelm Goering's collection of nude drawings.

It also contains Sir Neville's reports that Hitler repeatedly refused to guarantee that he would negotiate a settlement of the Polish question.

The ambassador quoted the Fuehrer as declaring Britain had forced him into his pact with Soviet Russia, but "he did not seem enthusiastic over it."

In warning that Japan would be "the only winner in another European war," Sir Neville said Hitler told him that after he had settled the Polish question he intended to "end his life as an artist and not as a warmonger."

Sir Neville, in telling how Britain sought to arrange direct Polish-German negotiations over their difficulties, said that Hitler repeatedly reiterated that negotiations would be bound to fail.

The envoy said he then sought to impress on the Fuehrer "that an attempt to impose his will on Poland by force would inevitably bring him into direct conflict with us."

The blue book also says the German reply to the British ultimatum of September 3 stated a refusal to "receive, accept, let alone fulfill, demands in the nature of ultimatums made by the British government."

## THREATENED REPLY

The German reply also said: "We shall answer any aggressive action on the part of England with the same weapons and in the same form," declared Britain had rejected proposals from Premier Mussolini which might have saved peace and added "the British government therefore bear responsibility for all the unhappiness and misery which have now overtaken and are about to overtake many peoples."

The bluebook also contains Sir Neville Henderson's report on his interview with Hitler August 25, when Hitler asked him to fly to London and put his case before the British government.

Excerpts from the report: "He (Hitler) was absolutely calm and normal and spoke with great earnestness and apparent sincerity."

"Herr Hitler began by saying that he had always and still desired good relations with Great Britain."

**ARTICLE NO. 3**  
By Robert G. Jackson, M.D.

"JUST a farmer? Why do farmers so undervalue themselves? A farmer seldom boasts of being one, yet what human activity is as essential, requires such courage, persistence, patience and faith, such philosophy to carry through adversity as does farming. Without the farmer what would become of us? He is the foundation stone of civilization—'the salt of the earth.'"

In almost everything we save the care of his own body he shows remarkable intelligence. His animals are given natural foods carefully "balanced" for them. But he and his family eat what they like, whether it builds life or leads to death. Generally his food habits make for early physical degeneration, old age, disease and premature death. But he is no worse in this regard than others.

"We become what we eat." If we eat civilization's dead, denatured, demoralized "foodless foods" why expect other than physical degeneration, disease and premature death, inevitable until we change our food habits.

How change them? Well I positively assert that if you, well or ill, will eat one full meal a day of Kofy-Sub daily, choosing the balance of the food intake from simple, sensible foods, you will soon realize why I, at eighty-one, am younger in mind and body than 90% of men and women in their early forties. If you're interested in health, you should read my book "How To Be Always Well". Send \$3.00 for your copy to me at Toronto 9, Ont.

NOTE—Soon I'll be lecturing all across Canada at principal points. Watch for dates. Come and learn about my methods, admission free.

FREE! For valuable free literature on food and health write Dr. Jackson Foods Ltd., 577 Vine Ave., Toronto.

Britain and his conscience compelled him to make this final effort to secure them. It was his last attempt.

## TOLD HIM PLAINLY

"The conversation lasted an hour, my attitude being that the Russian pact in no way altered the standpoint of H.M. government and that I must tell him quite honestly that Britain could not go back on her word to Poland and that I knew his offer would not be considered unless it meant a negotiated settlement of the Polish question."

"Herr Hitler refused to guarantee this on the grounds that Polish provocation might at any moment render German intervention to protect German nationals inevitable. I again and again returned to this point but always got the same answer."

"I told Herr Hitler we could not abandon Poland to her fate, but I made the entirely personal suggestion that Mr. Beck and Herr Von Ribbentrop should meet somewhere and discuss the way out which alone might save Europe from war."

"Herr Hitler's reply was that he had invited Mr. Beck to come and talk the matter over last March, only to have his invitation flatly refused."

"When I kept saying that His Majesty's government could not, in my opinion, consider his offer unless it meant at the same time a peaceful settlement with Poland, Herr Hitler said 'If you think it useless then do not send my offer at all.'"

"Among various points mentioned by Herr Hitler were: That the only winner in another European war would be Japan, that he was by nature an artist, not a politician, and that once the Polish question was settled he would end his life as an artist and not as a warmonger."

## WANTED GESTURE

"He did not want to turn Germany into nothing but a military barracks and he would only do so if forced to do so; that once the Polish question was settled he himself would settle down; that he had no interest in making Britain break her word to Poland; that he had no wish to be small-minded in any settlement with Poland and that all he required for an agreement with her was a gesture from Britain to indicate that she would not be unreasonable."

"After I had left Herr Von Ribbentrop sent Dr. Schmidt to the embassy with the text of a verbal statement and also a message from him to the effect that Herr Hitler had always and still wished for an agreement with Britain, and begged me to urge His Majesty's government to take the offer very seriously."

Sir Neville Henderson then flew to London. The document went on to relate Sir Neville's receipt of Hitler's answer to a British suggestion for direct discussions between the German and Polish governments.

Sir Neville reported he had told Hitler that the German demands for a Polish plenipotentiary to visit Hitler the following day sounded like an ultimatum.

## LESS REASONABLE

"After some heated remarks," he said, both Hitler and Von Ribbentrop assured the ambassador they only intended to stress the urgency of the moment.

Sir Neville, in a telegram to Lord Halifax, said the interview "was of a stormy character and Herr Hitler was far less reasonable than yesterday. He kept saying that he wanted British friendship more than anything in the world but he could not sacrifice Germany's vital interests for it, and that for the British government to make a bargain over such a matter was an unendurable proposition. All my attempts to correct this complete misrepresentation of the case did not seem to impress him."

"In reply to his reiterated statements that direct negotiations with Poland, even though accepted by him, would be bound to fail, I told him that their success or failure depended on his good will or the reverse and that the choice lay with him. It was, however, my bounden duty to leave him in no doubt that an attempt to impose his will on Poland by force would inevitably bring him into direct conflict with us."

At an earlier interview Sir Neville reported Hitler told him Britain had forced him into an agreement with Russia. The ambassador added: "He did not seem enthusiastic over it, but added that once he had made the agreement it would be for a long period."

## FEARED WIDER PACT

Sir Neville at the time informed Lord Halifax: "I shall not be surprised if (the Russian-German non-aggression pact) is not supplemented later by something more than mere non-aggression."

Sir Neville, at another point relating an interview with Field Marshal Hermann Goering, re-

ported: "He produced with pride drawing of tapestries, mostly representing naked ladies labeled with the names of various virtues, such as goodness, mercy, purity, etc. I told him that they looked at least Pacific, but that I failed to see patience among them."

The ambassador and Goering also discussed the outcome of the war between Germany and Britain, Goering saying Germany's history was one of ups and downs and that was an up period.

## APING HITLER

Of his fateful interview with Von Ribbentrop on August 30, Sir Neville reported: "His whole demeanor during an unpleasant interview was aping Herr Hitler at his worst."

The ambassador also described to Lord Halifax an interview with Goering last May, and said he warned the field marshal of the consequences of Hitler yielding to advice of his "wild men." Goering, Sir Neville said, changed the subject.

## Harewood Hospital

LONDON (CP)—The Earl of Harewood has offered his mansion, Harewood House, Leeds, for use as a hospital, it was learned today. Many owners of large houses have taken similar steps.

## Inspects Troops at Duncan Tomorrow

DUNCAN — The Duncan Garrison will be inspected by Lieutenant-Governor Eric W. Hamber tomorrow at the Duncan barracks at 11.15 tomorrow morning. The public is invited to watch the inspection in the barrack grounds. The garrison consists of the 62nd Field Battery R.C.A. and a Company of Second Battalion (MG) Canadian Scottish Regiment.

## Radziwill Prisoner

MOSCOW (AP)—The Soviet radio announced that Count Radziwill, head of the famous Polish house and owner of huge estates in the western Ukraine, had been detained. He had decided to remain, despite defeat of Polish armies, the broadcast said, "in order to create diversions." He was a member of the Polish Parliament.

## 25 Alberta Schools Closed

## Calinescu's Murder

TWO POINTS IN THE GOVERNMENTAL policy which Rumania's murdered patriot Armand Calinescu had pursued established him as an implacable foe of Adolf Hitler. From the time he became Prime Minister last March he had advocated closer economic relations with Great Britain and had lost no opportunity of denouncing the activities of the Iron Guard—the exponents of the Nazi creed. Something had to be done, therefore, about the political head of the one country in which Germany is especially interested—the country whose oil, foodstuffs, and iron the Berlin oligarchy would like to possess. The thugs did their work yesterday in the most approved gangster style.

What signs and portents this brutal murder emphasize it is impossible to estimate. The underground fight between the Iron Guard and the Rumanian government—not forgetting King Carol himself—has been bitter and dangerous ever since Corneliu Codreanu, the anti-Jewish leader and friend of Hitler, was shot with a dozen or more of his lieutenants while on their way to prison. They tried to escape, or so the world was informed at the time, and failed in the attempt. In this connection it may be recalled that the "removal" of the Iron Guard chief followed closely on King Carol's visit to the German Fuehrer. Speculation was rife as to what was behind it all. Foreign observers asked who had had Codreanu shot? It was inconceivable the monarch had had the deed carried out. Others asked if somebody else in Rumania had had it done and done quickly without Carol's knowledge; it happened but a few days after the King had been with Hitler. These are questions which may never be satisfactorily answered.

Rumania is a virtual dictatorship in that the ministry now operates without a Parliament. Under the existing system of government, three representative classes furnish the personnel of the 15-member cabinet—the agriculturalists, the free professions, and the workers. Eight representatives from each of these compose a Principal Council with authority to exercise executive powers. Actually, however, the King and his ministers have been running the country in recent months, and with conspicuous success.

## Our Neighbor's Business

PRESIDENT ROOSEVELT HAS ASKED the United States Congress to amend the Neutrality Act by replacing that clause which forbids the export of arms and munitions to belligerents with a provision permitting sale on a "cash-and-carry" plan. He has based his request on what he calls "one single hard-headed thought"—that of "keeping America out of this war." If Congress is persuaded to give him his way, the President proposes further steps, of which the following are self-explanatory:

1. Authority to fix war zones in which American merchant vessels may not enter.
2. Broader authority to prevent American citizens from traveling in vessels of belligerent nations or in danger areas.
3. Provision that belligerents purchasing commodities in this nation must take title to those commodities prior to shipment from U.S. shores.
4. A ban on war credits to belligerent nations.

Mr. Roosevelt appears to be firmly convinced that as long as the Neutrality Law remains as it is there is much more likelihood of the United States becoming embroiled than if it observed the ordinary custom of international trade which, of course, recognizes business in arms as well as in any other commodity. It is naturally right and proper that the seller should fix the terms on which he shall dispose of his wares. Mr. Roosevelt wants the authority for his country to sell war material to those belligerents who are in a position to pay for what they buy and take it away—the latter at their own risk.

Whether the present system or the "cash-and-carry" plan will keep the United States out of the war is something the march of events will decide. The President's request will be fought, as Senator R. M. La Follette of Wisconsin says, "from hell to breakfast." It will be attacked particularly because isolationists read discrimination into realist arguments. These opponents of change contend the advantage will be entirely on the side of Britain and France. They are right; their warships have made the Atlantic an unhealthy place for German ships or other ships seeking to deliver contraband to Germany, either directly or indirectly. This is a condition which will persist because the democratic allies intend to remove Hitlerism and to hold up any outside assistance that might lengthen its life.

Meanwhile, however, in this country should remember that what is going on in the United States Congress is the sole business of the United States. Mr. Roosevelt is not looking for gratuitous advice from Canada; he gives our statesmen credit for knowing how he feels toward this Dominion and the cause to which it is committed. He has his own fight in Congress; it is not an easy one. It will be easier, however, if neither our parliamentarians nor our press try to help him with unnecessary public statements.

## Brave People

IT WOULD PERHAPS BE UNWISE TO attach too much importance to the reports of revolt and sabotage which have flared up in Czech and Slovak territory. Nazi authorities had been expecting trouble and had taken every possible precaution to prevent its spread to serious proportions. This is not to discount the potential nuisance value of a sullen but by no means demoralized people—who will use every opportunity to add to the difficulty German authorities are having in preserving order in what was once the independent state of Czechoslovakia.

A week or so before Nazi legions began their march into Poland the Czech government in Prague issued an order exhorting the people to be calm, directing all persons in every walk of life to remain steadily at their posts. This order was the result of a warning by the German authorities that the government would be held responsible for acts of sabotage committed in the protectorate. All power is in the hands of the Reichs-protector, and the Czech government must obey his commands. It endeavors to retain some shred of popularity by showing reluctance to act on German orders. It nevertheless is able to convey to the people that it is subject to German pressure all the time. Under this form of government the Czechs are naturally resentful.

According to the estimate of the Nazi Professor Gessner of the German University in Prague, the German population of the protectorate is about 250,000 out of 7,500,000 inhabitants. Recent arrivals are required for administrative duties. These are not unnaturally treated to the "cold shoulder" when occasion presents. So while the Czechs are disarmed, they are not demoralized, and it would not be surprising if, before the war is much older, the protectorate comprising what once was the greater part of Czechoslovakia becomes a severe pain in that part of Adolf Hitler's anatomy which joins head to body.

## It All Depends

REICH PROPAGANDA MINISTER GOEBBELS told foreign newspaper correspondents in Berlin yesterday that Germany did not intend to violate the neutrality of Belgium, The Netherlands, or Luxembourg. He said he was in a position "to give a categorical, unequivocal and unconditional denial" to any suggestion of the kind.

The world will note what the Herr Doktor says. At this distance, of course, it would seem that Germany has enough on her hands to deal with the strangers already within her gates between Luxembourg and the Swiss frontier, without borrowing further trouble from nations which have obtained a fairly good idea of modern war strategy.

In any event, Belgium and Holland will not be caught either by surprise or without preparation to meet any emergency; both countries are obviously on a war footing. King Leopold's troops and their highly-mechanized equipment would not have to wait long for any support Britain and France might find it necessary to give them. And Belgium's line of fortifications is vastly different from the forts which were no match for Germany's heavy howitzers in 1914.

"You can still walk in Berlin and not know the war is on." But who wants to walk in Berlin?

Still, as the Edmonton Journal repeats, there is no answer to the question, "Bremen, Bremen, who's got the Bremen?"

Alarmed entomologists say insects are hitch-hiking long rides by planes. Maybe the Japanese beetle could be induced to take one of the Pacific clippers home.

## 5 Per Cent Profit

From Ottawa Journal

It is well that Parliament has come to realize that talk of limiting private profit on war contracts to "5 per cent" was nonsense. No business man in this country with any common sense would take any contract on a basis of 5 per cent estimated profit.

In the first place, there is always the possibility of loss in a contract; to compensate the chance, there should be a possibility of good profit.

Secondly, in any important contract, some capital expenditure is necessary, either preparatory or incidental in the way of business equipment, which will likely be more or less a loss at the termination of the contract.

Thirdly, a successful business man whom you might ask to put his capital, time, brains and energy into some business where his profit will be limited to 5 per cent, he can put you down for a fool. He knows he can do better at something else.

In the House of Commons Mr. Stevens and Dr. Manion emphasized that consideration should be given to the fact that in war contracts there would inevitably have to be expenditure for machinery and equipment which would be useless when war was over. Later, Hon. Mr. Howe informed the House that the proposition that profit be limited to 5 per cent would be dropped because it was unworkable—the government had not been able to get a single contract under it.

Instead, there is a proposition to levy a special general excess-profits tax on all business, beginning with profit over 5 per cent, or the capital employed, and becoming very heavy as the rate of profit shows higher. This seems sensible and fair as regards war business.

## Thoughts

Jesus answered and said unto him, If a man love me, he will keep my words; and my Father will love him, and we will come unto him, and make our abode with him.—St. John 14:23.

Let grace and goodness be the principal lodestone of thy affections.—Dryden.

## Loose Ends

By BRUCE HUTCHISON

### THE SENATE

THE SENATE of the United States is a pleasant, crowsy sort of place. The Senators keep up a hum of conversation, walk about, stand in little groups and read the newspapers.

Vice-President Garner broods on the high speaker's dais with the look of a tired old rooster. Some obscure senator drones on in a set speech, but hardly anyone listens. Borah wanders in, listens for a few minutes, his great shaggy head in his hands, and wanders out again. Old Norris, last of the great Liberals, slouches in his seat, dreaming. Pittman, Jean and hard, with his Yukon look still about him, glances around and moves out to light another cigarette. Old Carter Glass, tiny and grizzled, rises to make a few acid remarks, his face contorted with rage, and subsides again. Garner hands over his wooden gavel to somebody else and wanders out to enjoy a cigar in the smoke room.

It looks like a comfortable men's club of the better sort. There the fate of the Neutrality Act, of the Allies' war purchases, perhaps the whole course of the war hangs in the balance today. But make no mistake, the Senate is not drowsy. It is not tired. It is not stupid. It is as intelligent a body of statesmen as the world holds and, when the occasion requires, it can rise suddenly into such a passion and ferocity as the more genteel British House of Commons never would permit itself.

Today the Senate is asked to repeal the embargo on armament shipments to the belligerent nations, which means to the Allies, since the Germans cannot come and get them. It seems simple enough to us. It seems perfectly logical, if the United States wants to remain neutral, that it should sell to anybody who cares to buy and take the risk of transportation.

### POLITICS

IT IS NOT AS SIMPLE as it seems to us.

In the first place, this great issue which the Senate is called to decide, cuts clear through party lines. The Republican Party is split on the arms embargo. Some of its leaders will vote with the President for its repeal. Some of the Democrats have voted already against repeal. Roosevelt himself is an embarrassment to his own policy of repeal first, because some Democratic senators have their knife into him for his attempts to drive them out of the party, and, second, because he is suspected by men on both sides of wanting, secretly, to put the United States into the war.

The Senate will wrangle bitterly on this question of repeal, but unfortunately for it the policy of the United States is being made elsewhere. Invisibly, day by day, dollar by dollar, it is being made by the business of the nation at large. And with the President's help.

The President talks neutrality now, but his policy smacks more of his Chicago speech of 1937, in which he urged a quarantine of aggressor nations, than of his Chautauqua speech of 1936, in which he warned the nation against accepting the "fool's gold" of war business and then added: "It would be hard for many Americans, I fear, to look beyond, to realize the inevitable penalties, the inevitable days of reckoning that comes from a false prosperity. To resist the clamor of that greed if war should come would require the unswerving support of all Americans who love peace."

Today Mr. Roosevelt is not resisting it. He is encouraging it.

Today the President is doing nothing to stop a war boom already under way. He is not attempting to halt the sudden increase in prices and business profits, based on war business. He is not trying to curb the upward surge of the stock market. The policy of the American government today is to let the United States prosper as a result of war business from Europe. The fool's gold of 1936 has become in 1939 the core of the New Deal.

Thus the Senate faces more than a problem of foreign policy. It faces another revolutionary process in the internal economy of America, as profound as the process of the New Deal. The United States which was unable to achieve prosperity under the New Deal is going to achieve something like it through the war, and through the Allies' ability to prosecute the war.

### PLANES

ROOSEVELT IS SATISFIED, first, because his domestic problems are solved for the moment, secondly, because he wants to help the Allies "by means short of war." If the embargo is repealed the United States will give the Allies enough economic help to win the war. For example, it could sell them 5,000 airplanes a month by the end of the first year, where Britain, France and Canada can produce only 3,300, Germany 2,500 and Russia 1,000.

The Senate finds itself today facing an America which already has made up its mind that it wants Hitler beaten. It finds an America already in the war economically and getting in deeper every day, an America which soon will be unable to face the collapse of the war boom, built on Allied orders. Yet we should never forget here that America is still overwhelmingly against active participation in the military phases of the war and has completely evaded the ultimate logic of its present participation in the military phases. It has not faced either the fact that the war boom solves nothing permanently, that the war prosperity will collapse after the war, that the New Deal or some other solution must be tried all over again under much greater difficulties.

We are taught humility for our own good. Vanity invites hurts, while humility protects itself by expecting little.

## Old War Slang Back in Style

Words and terms that slumbered for more than 20 years are being reawakened today by the clash of arms in Europe.

Less than a quarter of a century ago, soldiers, sailors and aviators had devised a large outlandish vocabulary, much of it sardonic, to describe the tools of death, enemies, surroundings and fellow-fighters.

Much of their salty lexicon is or will be back in the to-day-day news. Do you remember:

Dog-fight—Aerial battle between fighting planes.

Archies—Anti-aircraft guns.

Blighly—Home.

Ladies from Hell—Kilted Scots.

Poilu—French soldier.

Anzacs—Australian-New Zealand Army Corps.

Tommy Atkins—British soldier.

Gone west—Killed.

Ashcans—Depth charges dropped on undersea craft from subchasers.

Camel Corps—Infantry, because they were piled so high with equipment.

Fireworks—Night bombardment.

Red cap or brass hat—British staff officer.

Old man—Company or regimental head.

Ammo—Ammunition.

Cootie—A flea.

### FINANCIAL LONDON ESTIMATES PERFDY

From London Economist

The Russian Bolshevik has always been represented by the world's cartoonists as a bearded fellow carrying a smoking bomb. But no revolutionary Bolshevik ever hurled a bomb that exploded with more shattering effect than that which was detonated in Berlin and Moscow when in what surely must have been the biggest single piece of perfidy in history, Soviet Russia has betrayed all its principles, encouraged the aggressors and double-crossed those who were trying to be her friends in Western Europe. No amount of ideological perfume will avail to remove the smell that will forever hang about the name of Bolshevik.

It was assumed that Soviet Russia has almost taken her place in the peace front against aggression. The reason for Hitler's refusal to be shaken by the apparent strength of the Peace Front became apparent when the German official wireless announced that Germany and Russia had agreed to sign a nonaggression pact.

It cannot be disguised that this treaty is a very severe setback to the diplomacy that Britain and France have been pursuing since last March. It encourages the Nazis to go farther on their path of aggression and makes it less possible to restrain them if they do.

Stalin's motives must be left for history to unravel. Fear of being involved in a war that might bring his regime down played some part in them, as also did the desire to be the balancing factor in Europe. These are ambitions that can easily be forgiven. But to advance them by putting his country in pawn to Hitler is dangerous to the extreme. And to choose this method at this time is almost the same thing as provoking a world war with the deliberate object of bleeding European civilization to death.

It is an act of perfidy, infamy and criminal irresponsibility beyond calculation. It provides a tragically clear demonstration that there will be no safeguard for the ordinary decencies of international life so long as any dictatorship, of whatever superficial ideological hue, is allowed to remain.

Yet that we should be faced with such a heavy struggle is a shameful burden placed by the bankruptcy of statesmanship on the shoulders of the people. Over and over again we have been given the chance of stopping the rot at infinitely smaller risk. But we have let the League of Nations die. The bravery and endurance of the common people will now have to pay heavily for the utter lack of courage and foresight in those who have held the high offices of state during the last eight years.

ALL QUIET? NOT AT ALL! From the Kingston Whig-Standard  
Even though one of the early acts of the Nazis was to ban "All Quiet on the Western Front" and to send its author into exile they seem to have retained the title for the purpose of deceiving the German people.

### MISTAKEN SIGNATURE

To the Editor:—May I call your attention to a mistake in the signature at the end of my poem, "September 1939," published in your paper on September 19. It should have read

EMMA HARRISON.  
1729, Duchess Street.

—Shoes, Bargain Highway

### "STREAMER" HEADLINES

From Manchester Guardian

Deprecation in the House of Commons of sensational headlines in our newspapers (as well as of alarming newspaper bills) may prompt some inquiry about the first appearance in British journalism of the "streamer" headline.

As a rule everything which can be called sensational in journalism is said to have reached us from the other side of the Atlantic, though the suspicion is not always borne out by the facts. In case, however, the charge can be maintained in the case of headlines, it does happen that a definite claim has been made in the United States for the first thing of its kind in that country.

Willis J. Abbot, writing in ("The World Goes By") of his own experiences in American journalism, recalls the days when he was working on the Chicago Times in the first half of the eighteen-nineties when it was owned by Carter Henry Harrison, who, among other things, was mayor in the World's Fair year and was shot down by a madman, "Under the Harrison regime" (writes Abbott), "the Times was a precursor of the liberal dailies of later years. Even some of the most audacious 'innovations' credited later to Hearst or Brisbane in fact found first publicity in its columns. While not particularly proud of the fact, I cannot help chronicling that the first full-page 'streamer' known to the daily press appeared in this paper, which in this fashion cried out:

"Abolish the Senate."

### WAR TAX YIELDS

From Toronto Star

Readers have perhaps been puzzled by the varying estimates which have appeared with regard to the probable yield of Canada's new taxation. The estimate of \$21,000,000 is for the remainder of the current fiscal year which ends with March of 1940, and does not include anything from the increased corporation and individual income taxes or from the new excess profits tax, as these are not payable prior to that date. The estimate of \$62,000,000 is for a full year's operation of all the new taxes except the excess profits levy, the returns from which the government cannot even guess. If corporation and individual incomes rise by reason of the war, the \$62,000,000 estimate is likely to be exceeded.

### OUR "ENGLISH" ANNOUNCER

From Financial Post

The "little" stories about the Royal visit continue to circulate. An amusing one has to do with the arrangements made by the Canadian Broadcasting Commission to broadcast the reception at Toronto. The preparations naturally were elaborate for an event of such importance. Before Their Majesties arrived there was some talk of these preparations and it was even suggested that announcers would be brought out from England. Gladstone Murray and conferees frowned on any suggestion that the CBC could not handle the job.

But when the Toronto reception was broadcast by an announcer with a pronounced Oxford accent, the suspicions of more than one listener were confirmed. Letters poured into the CBC complaining of the importation of the "English" announcer. "Did we not have Canadians who do just as good a job?" So the complaints went. They went unanswered, for the CBC was in an awkward box in that it did not want to admit that it had brought a French-Canadian announcer from Quebec City to broadcast the Toronto reception in English!

### Better English

By D. C. WILLIAMS

1. What is wrong with this sentence? "We shall arrive at about nine o'clock."
2. What is the correct pronunciation of "rathskeller"?
3. Which one of these words is misspelled? Neglige, neuritis, negoshiate.
4. What does the word "benignant" mean?
5. What is a word beginning with fa that means "exceeding the bounds of probability"?

Answers  
1. Omit at. Say, "We shall arrive about nine o'clock." 2. Pronounce rats-keller, as in ah, accent first syllable. 3. Negotiate. 4. Kind; gracious. "I feel that benignant and wondrous Presence, as one might feel the passing of an angel in the dark." 5. Fabulous.

mit that it had brought a French-Canadian announcer from Quebec City to broadcast the Toronto reception in English!

## SAFETY DEPOSIT BOXES OFFER PRACTICAL PROTECTION

A Safety Deposit Box in The Bank of Toronto is the modern, practical method of safe-guarding your valuables, of relieving yourself of worry. # Esquimalt Hi-Y Elects Officers

Twenty-one girls attended the first regular meeting of the Esquimalt Girls' Hi-Y Club on Wednesday afternoon. The following were elected to hold office for this term: President, Audrey Prior; vice-president, Marie Sweeney; secretary, Angela Macklin; treasurer, Joyce Robinson; publicity, Marjorie Wingert; songs and ceremonies, Helen Christensen.

Meetings will be held on Wednesday, instead of on Tuesday as last year, and will commence at 3.30. Miss G. N. Hewlings, principal of the school, will act as adviser to the club.

All members of the Girls' Hi-Y Interclub Council and new presidents of the various clubs are looking forward to the presidents' training conference to be held over the week-end of September 29 to October 1. Workshop periods will be conducted by the secretary on various phases of the Hi-Y activities, and opportunity will be given each girl for some practical experience.

The conference theme is based on the purpose, "This I desire: To be physically perfect, mentally alert, socially alive, spiritually awake that I may live a fuller, richer, more worthwhile life."

The conference is fashioned like the recent conference held at Galiano, when Vancouver presidents came together for training and preparation for fall club work. Besides the new officers and council members several of the advisers will be present over the week-end.

# Victoria North Guides' Parents Group Active

The parents' committee of the third Victoria North Girl Guides met at the home of Mrs. E. Middleton, 545 Beta Street, recently, who presided. District Commissioner Mrs. V. Pritchard, Capt. A. Wilkinson and many mothers were present.

Thanks were received from up-island guides and the Old Country schoolgirls who were entertained by guides in Victoria during their visit here.

A substantial donation was voted for the Sooke campsite funds. The president's resignation was read with regret and Mrs. J. P. Brown was appointed. Mrs. J. Grahame was appointed badge convener and Mrs. A. Cartwright, refreshment convener. Parents of Brownies are cordially invited to attend these meetings, the next of which will be held Tuesday, October 17, at the home of Mrs. J. Brown, 11 Hampton Road.

"THE WAREHOUSE"

1429 DOUGLAS STREET 1310 GOVERNMENT STREET

# W.C.T.U. Press for Legislation On Liquor

Would Eliminate Bootlegging; Also Manufacture in War

Members of the Women's Christian Temperance Union formed a delegation to wait upon the provincial government this afternoon with resolutions anent the liquor traffic, passed at the closing session of the 56th annual provincial convention yesterday afternoon at Emmanuel Baptist Church.

One of these resolutions called for introduction of legislation which would eliminate bootlegging; the other called for an amendment to the Liquor Act which would bring about abolition of all liquor advertising in the province.

A third resolution, to be forwarded to the federal government at Ottawa, asks for prohibition of manufacture of alcohol for beverage purposes as a wartime measure, basing its argument on the belief that "the manufacture of alcohol wasted the food supply of the nation, and that the importation and sale of liquor adversely affected purchasing power."

Rev. R. J. McIntyre, organizer of the British Columbia Temperance League, was thanked by the convention for having negotiated the arrangements for the call on the provincial government this afternoon.

# YOUNG PEOPLE'S WORK

Camp work, prison visiting, the work of the White Ribbons among children in the family circle, supper gatherings and picnics, and various other young people's activities in the interests of temperance work were reviewed in lively papers read to the convention in the course of the day by Dorothy Little of Williscroft, "Y." Ladner, Amy Kline, Unecda, "Y." Vancouver; Edith Harris, provincial superintendent of the fair and exhibit work, and Beatrice Short, West Vancouver "Y."

Presentation of banners was followed with applause. Representing Rockland Park W.C.T.U., Victoria, Mrs. F. W. Laing was presented with the banner given for greatest increase in membership by any branch of the organization in British Columbia. Mrs. Boyer, as president representing the Gillespie W.C.T.U., Vancouver, received the "W's" banner; Mrs. J. Lade, representing Mount Pleasant Union, Vancouver, received the L.T.L. banner and Mrs. Welch, representing Grandview L.T.L., Vancouver, received the shield for general proficiency.

Rev. Dr. A. D. Reid the "Quiet Hour" period at noon, and several children from the Oriental Home presented a playlet entitled "The Medicine Shelf."

# Social and Personal

Mr. and Mrs. J. W. Harris and family are leaving this week-end for Vernon, to which city the former has been transferred by the Bank of Montreal.

Miss Josephine Rithet, who has been the guest of friends and latterly at the Empress Hotel since her return from England, left yesterday for Los Angeles, where she will make her home for the present.

Mr. and Mrs. G. W. De Beck of Vancouver have arrived to make their home with their son and daughter-in-law, Mr. and Mrs. K. De Beck, Somass Drive. Mrs. G. Manford of Blaine and Mrs. William Chere of Vancouver, who have been the guests of Mr. and Mrs. E. K. De Beck for a few days, returned yesterday afternoon to the mainland.

Mrs. H. Pearson, Colquitz Avenue, entertained at her home recently in honor of Mrs. E. A. Shone, the former Pat Dunnett. The bride was presented on her arrival with a fragrant corsage bouquet of petunias and later was presented with a handsome electric clock from her friends. Games were played and refreshments served by the hostess. The invited guests were: Mesdames H. N. Dunnett, W. D. Munro, C. Newbury, B. Martin, R. Johnston, G. Henry, M. Featherstone, B. Hearne, W. Carter and Miss Ivy Dunnett.

Wives of Vancouver doctors were hostesses at a dinner party held in the private suite in the Hotel Vancouver yesterday evening in honor of the wives of visiting doctors attending the medical convention in the mainland city. Mrs. D. E. H. Cleveland presided, and Mrs. F. M. Auld of Vernon, wife of the new president, was guest of honor. Fall chrysanthemums were arranged in low bowls at the head table, at which covers were also laid for Mrs. T. McPherson of Victoria, Mrs. E. C. Yoder and Mrs. H. G. Willard of Tacoma, Mrs. R. B. White of Penticton, Mrs. O. Morris of Vernon, Mrs. J. S. Daly of Trail and Mrs. E. M. Blair, Mrs. Morris H. Thomas, Mrs. W. E. Ainsley, Mrs. Lavell Leeson and Mrs. G. F. Strong of Vancouver.

An enjoyable evening was spent on Wednesday when Mrs. W. Glover and Miss Elsie Lavis were hostesses at the home of Mrs. Cruickshanks, Prior Street, in honor of Miss Veda Dakers, an October bride-elect. The many lovely gifts were presented to the bride-to-be in a basket decorated in the colors of the Shell Oil, where the bridegroom, Mr. Thomas Packford, is employed. The table was centred with a miniature gas station. Games were played, the winners being Miss Irene Wallace, Mrs. Howland, Mrs. Jasper and Miss Winnie Abbott. Those present were: Mesdames A. Dakers, P. Packford, J. Dakers, D. Dakers, Benwell, T. Wallace, A. Johnson, W. Jasper, R. Willoughby, F. Howland, H. Earle, E. Oldhall, A. Provan, V. Stevens, N. McSweeney, E. Stevens, C. Chapman, and the Misses Edna Wallace, Irene Wallace, D. Ferguson, Kay Caldwell, Elsie Mathews, Irma Dakers, Margaret Packford, Winnie Abbott, Georgina McKay, Anne Provan, Jean Torrance, Pearl Redknapp, Kay Miles, Joan Lambrick and Mrs. Cruickshanks.

Miss Alice George, Dallas Road, has returned home after spending a three weeks' holiday visiting in Toronto and in Winnipeg.

Dr. and Mrs. George Wardell, Boyd Street, who left last week for Edmonton to attend the marriage of their daughter, Miss Josephine Wardell, and Mr. Edward Longman on Saturday, will remain in Edmonton for a month, guests of their son and daughter-in-law, Mr. and Mrs. Herbert Wardell.

Mrs. Merritt McCarroll, who made her home here for a number of years, has returned to Victoria and taken up her residence on Dysart Road, the Gorge. Her sisters, Mrs. J. Whimster and Miss Helen Dixon of Aurora, Ontario, have returned to eastern Canada after spending the summer with Mrs. McCarroll and with Mrs. L. L. Creagh of Cowichan Bay.

In honor of Mrs. W. R. Orchard (nee Phyllis Towler), Mrs. F. E. Blake entertained at a tea and shower at her home on the West Saanich Road, Wednesday afternoon. On the arrival of the guest of honor, Mrs. W. R. Woods, with an appropriate verse presented her with a beautiful bouquet of pink dahlias, to which were tied many beautiful and useful gifts. Mrs. L. R. Towler and Miss A. G. Jacobson presided at the tea, and Mrs. M. Young and Mrs. Huntley assisted the hostess in serving refreshments from a daintily appointed tea table centred with a bowl of sweet peas. The guests present were Mesdames W. R. Orchard, L. R. Towler, H. C. Oldfield, F. G. Quick, R. Kellow, W. R. Woods, W. Bolton, F. Bolton, K. Mead, Robins, Huntley, J. G. Peet and Misses K. Oldfield, Miriam and Joy Doyle and M. Bolton.

Miss Phyllis Crowe, whose marriage to Mr. Dave Pye will take place this Saturday, was the guest of honor on Tuesday evening at a miscellaneous shower at the home of Miss May White, 1745 St. Ann's Street. The bride-to-be was presented with a corsage bouquet of pink carnations upon her arrival. The many useful gifts were concealed in a pretty basket, the color scheme being yellow and mauve. Before the refreshments were served the guests took part in a jolly sing-song. Those invited were: Mesdames Crowe, Pye, Webster, White, Clark, Oldhall, Garnot, Pollitano, Burton, Walters, Willshire, Wood, Alexander, Hurst, Johnstone, Jones, and Misses P. Crowe, J. Crowther, E. Duncan, J. Duncan, F. McPhail, F. Gibson, A. Eccles, A. Sawyer, E. Newburn, G. Roskelly, R. Harbinson, B. Sawyer, N. Kerley, M. Walker, J. Falconer, E. Bent, J. Lambrick, T. Tilnie, D. Martin, E. Morris, V. Holness, M. Watt and M. White.

In honor of Miss Connie Orrick, whose marriage will take place early next month, Mrs. W. G. Norris entertained Wednesday evening at her home on Quadra Street with a miscellaneous shower. The many useful and pretty gifts were presented to the bride-elect by little Geraldine Smith, and were concealed in a miniature cottage surrounded by a lawn and flower garden. Dainty refreshments were served from the supper table, set with a crocheted cloth and centred with a

# Weddings

LONGMAN—WARDELL

EDMONTON — With gladioli, asters and chrysanthemums forming a colorful autumn setting, the wedding took place in Central United Church Saturday, September 16, of Josephine Theodore, youngest daughter of Dr. and Mrs. George Wardell of Boyd Street, Victoria, formerly of Edmonton, and Mr. Edward Stewart Longman of Victoria, eldest son of Mr. and Mrs. Edward Longman of Onoway. Rev. A. Finnis Marsh officiated.

Dr. and Mrs. Wardell were here from the coast for the wedding, and Dr. Wardell gave his daughter in marriage.

She wore a petal-pink taffeta gown fashioned on princess lines and featuring large stiff bows at the shoulders. A demure bo-peep hat of matching taffeta was trimmed with blue and pink forget-me-nots, and the pink tulle veil which fell from the hat to her shoulders was stitched in pale blue water lilies. Gladioli, shading from pale pink to flame, comprised her bouquet.

Miss Kathleen Busby attended the bride, wearing a full-skirted gown of pale green net over taffeta, made with a flared bolero jacket. Her tatted turban and her accessories were white, and her flowers were pink roses and carnations.

Mr. Herbert Wardell, brother of the bride, was best man and Mr. Jeffrey Hodgson and Mr. Phoenix McBride were the ushers.

Mr. James Alton was at the organ and during the signing of the register Mrs. Frank Waite sang "All Joy Be Thine."

Reception to about 35 guests was held later at the west-end home of the bride's brother and sister-in-law, Mr. and Mrs. Herbert Wardell. Mrs. Wardell, mother of the bride, wore forget-me-not blue crepe with touches of coral, and her navy hat was trimmed in coral. Her corsage was of coral and white carnations. Mrs. Herbert Wardell was in delft-blue taffeta, her gown featuring knife pleating at the neckline and around the hem. On her head she wore a short white veil caught with two gardenias. Her corsage was of white carnations.

Mr. and Mrs. Longman left Sunday evening for Victoria, where they will reside.

To travel, the bride wore a floral silk frock with tones of rust predominating, and a rust hat and accessories. Her topcoat was of grey wool.

# RUBEN—CUSSON

EDMONTON — Married at a simple morning ceremony in the Catholic church at Jasper on Saturday, September 16, Mr. Paul Ruben of Ottawa and his bride, the former Miss Rita Cusson, have left for the Pacific coast, where they will visit prior to taking up residence in the Dominion capital.

The bride is the second daughter of Mr. and Mrs. B. Cusson of Nanaimo, and a sister of Miss Marguerite Cusson of this city. She was a visitor in Edmonton prior to her wedding, the guest of Miss Lillian Nadeau at the home of her parents, Mr. and Mrs. J. A. Nadeau.

She wore for her wedding a British brown silk frock, a chocolate brown hat and accessories. Her corsage was of Tallman roses.

Attending her sister, Miss Marguerite Cusson wore navy blue taffeta, opening in redingote style over printed silk, and a corsage of Tallman roses. Her hat was navy.

Mr. J. Ciavaglia was best man.

# MILLS—LANGLEY

Announcement is made of the marriage of Beatrice Massie, second daughter of Major and Mrs. W. H. Langley of 1031 Terrace Avenue, and Mr. William Mortimer Mills, son of Mrs. Mills of Joan Crescent and the late Dr. Mills of Toronto. The wedding took place at St. Mary's Church today with Rev. Archdeacon A. E. de L. Nunns officiating.

# Winnipeg Women Back Registration Scheme

WINNIPEG (CP)—First step to organize voluntary registration of Winnipeg's women power for war or other emergency service was taken last night when a mass meeting of more than 1,800 women gave unanimous approval to a plan for National Voluntary Registration of Canadian Women. A bureau will be set up to conduct the voluntary registration.

silver basket of pink carnations. The guests present were: Mesdames E. A. Orrick, W. A. Smith, R. Ritchie, M. Smith, S. Orrick, D. Crowe, J. White, T. Rhodes, H. D. Smith, C. Strawford, S. Smith, B. Flintoff, R. Wallace, N. Norris, and the Misses M. Fairfull, B. Johnston, M. Morgan, J. Smith, M. Smith, V. Hannah, E. Clark, L. Crowthers, and Geraldine and Marilyn Smith.

# Y.M.C.A. Auxiliary's Autumn Tea Soon

On Wednesday, October 18, the Ladies' Auxiliary to the Y.M.C.A. will hold their autumn tea at the home of Mrs. Wm. T. Straith, 1524 Gladstone Avenue, to which all friends of the Y.M.C.A. or auxiliary are cordially invited. Tea will be served from 3.30 to 5.30, and a musical program will be conducted.

The auxiliary held their first meeting of the season on Wednesday, in the Y.M.C.A., the president, Mrs. Edwin Tomlin, in the chair, when plans for the tea were made.

The auxiliary expressed a willingness to assist the board of the "Y" in any effort that they may make for the comfort or amusement of the enlisted men in the city or adjacent forts.

The house committee reported certain plans for improved comfort in the Y.M.C.A. building.

Attention of the members was drawn to the request for magazines, papers or games for the soldiers in barracks, these to be left at the Y.M.C.A. building.

# ST. MARK'S A.Y.P.A.

St. Mark's A.Y.P.A., met in St. Mark's Hall with the president, Miss M. George in the chair. Final arrangements were made for the annual meeting on Tuesday, September 26, in the hall at 7.45 p.m. It was decided to hold the meetings of the A.Y.P.A. this season every Tuesday evening at 7.45, also to form an A.Y.P.A. Badminton Club.

# HAS TREATED COLDS SAME WAY FOR 15 YEARS

## Teacher Describes Tour of Japan

The University Women's Club opened its autumn program this week with an interesting address by Miss Nan Eaton, in which she vividly described her five weeks' tour of Japan this summer.

As one of a party of 29 Canadian and American high school teachers, Miss Eaton traveled all over Japan and saw everything worth seeing, the tour being sponsored by the Board of Tourist Industry of the Japanese Government Railways.

The teachers were given official recognition and formal escort, traveling everywhere in government motor cars, and being met at all points by representatives of boards of tourist, industry or similar groups, and being shown every phase of contemporary life.

The president, Mrs. Hazel Hodgson, presided at the meeting and about 60 were present. Conveners of committees for the current year reported as follows: Program committee, Miss Edith Green; loan fund, Miss Patricia Hamilton-Smith; refreshment committee, Mrs. N. E. Murphy; Dr. Olga Jardine was appointed representative on the National Federation, and Miss Ruth Field on the National education committee.

Following a statement concerning the plan for the national voluntary registration of women, Mrs. H. Smith was appointed as the club's representative to the local committee. Dr. Jardine outlined the registration plan to the meeting, and on motion of Miss Eaton a committee, formed of the executive, was appointed to look into the matter and report at the next meeting.

Miss Worthington reported in connection with the club's loan fund that since its inception loans totaling \$1,403 had been made to students, including the grant of \$100 made this year to a young man who is going on to his third year at the University of British Columbia. Dr. Jardine reported on the Canadian Federation scholarships, explaining this helped to absorb the member fees.

Miss Noble contributed two much-enjoyed vocal solos to the evening's program.

## Superfluities Store Receives Co-operation

The Red Cross Superfluities Store, recently opened on Government Street, has received wonderful co-operation on every hand. Very many offers of voluntary help have been received, and every one who has applied has undertaken useful services already.

The store has also had the offer of almost unlimited assistance from the Boy Scout organization, and many functions in connection with delivery and picking up of goods, alterations to the store fixtures, and cleaning and repair work have been undertaken.

Among the most helpful services being rendered are those of CFCT, air space on which is being arranged with its sponsors for the promotion of work, and citizens listening will be informed of ways in which they can help the Red Cross, which is desperately in need of funds.

## Bridge Tea Will Aid Protestant Orphans

The first annual bridge tea in aid of the Protestant Orphanage will be held in David Spencer's dining-room tomorrow afternoon under the auspices of the Junior Auxiliary of the Protestant Orphanage. Bridge tea guests will be welcomed at 4.

As this is the first endeavor of the Junior Auxiliary to raise funds, it is hoped that all who are interested in the welfare of the orphans will give this tea their patronage. All the proceeds are to be used for clothing and other necessary requirements of the children.

Reservations and tickets may be obtained by phoning Miss Elsie

## Social and Personal

Mr. and Mrs. Ivo Henderson of Hollywood, California, have arrived from Vancouver, where they have been staying for a few days, and are the guests of Mrs. Henderson's mother, Mrs. G. A. Henderson, Grafton Street, Esquimalt.

Mr. and Mrs. Wah Lowe and their sons, Victor and Evan, returned to Langford yesterday after a motor trip to Oakland, Niles and San Francisco, Cal., where they were the guests of friends, and also visited the World's Fair on Treasure Island.

Mrs. Herbert Lequesne of Colwood was the guest of honor Thursday evening at the home of her father, Mr. O. B. N. Wilkie, 331 Quebec Street, Victoria, when a number of her friends tendered her a surprise party and miscellaneous shower. The good wishes of the assembled guests were conveyed to Mrs. Lequesne by Miss Louise Eastman, and a corsage bouquet of roses was presented to her. Many beautiful and useful gifts were presented to the guest of honor. Miss Elizabeth Welch sang a solo. A chronological contest was won by Miss Hilda Guy and Mrs. Percy E. Welch. Chinese checkers were played during the evening, after which refreshments were served. The self-invited guests were Mesdames J. Trace, H. A. Hincks, J. T. Gill, P. Welch, A. W. Silman, F. Smedley, M. A. Morrow, A. F. Bayles, A. Hankin, H. F. Dack, J. Blenkinsop, J. C. Nimmo, A. Ramsfield, J. H. Downard and N. Brown, and the Misses B. Hall, L. M. A. Savory, Louise Eastman, J. Seabrooke, E. Welch, H. Guy and W. Wilkinson.

Mrs. J. A. Raymond entertained recently at her home on Haultain Street with a cup and saucer shower in honor of Miss Doris Henry, whose marriage will take place at the end of this month. On her arrival the bride-elect was presented with a corsage bouquet of Talsman rosebuds and a sapphire pin. The gifts were concealed in a basket decorated in pink and white, and the drawing-room was adorned with pink and white streamers attached to a white bell. A guessing contest preceded refreshments, which were served from a prettily-appointed table centred with a cut glass bowl filled with pink cosmos. The guests included Miss Doris Henry, Mrs. R. White, Mrs. A. Anfield, Mrs. J. T. Williams, Mrs. D. Anfield, Mrs. E. Anfield, Mrs. M. Streeton, Mrs. E. Rutherford, Mrs. James McNair, Mrs. M. Trice, Mrs. W. Blair, Mrs. E. Guy, Mrs. S. Russell, Mrs. E. Winter, Mrs. R. Eastham, Mrs. A. Thomas, Mrs. E. Rowbottom, and Mrs. G. Stock, and the Misses Alice White, Daisy White, Bessie McNair, Margaret Henry, Ethel Phee, Dorothy Thomas and Olive Rowbottom.

## Easy As Custard Pie

by Mary Blake

An old saying that becomes true if you follow my Carnation Milk recipe. And it's not just easy—it's good! It's s-m-o-o-t-h, creamy, rich in flavour.

Noted baby specialists prescribe Irradiated Carnation Milk because it is safe, more digestible than cows milk in any other form, always uniform—and it costs so little.

Of course, custard pie isn't Carnation's only specialty. Because it is double-rich in every drop, it improves the flavour of all dishes calling for milk or cream—and of coffee and cereals. Carnation is just whole milk with part of the natural water taken out; sterilized so it keeps on the pantry shelf indefinitely; homogenized to give every drop equal creamy smoothness; irradiated for extra "sunshine" vitamin D.

There are glorified recipes of all kinds in the beautifully illustrated Carnation Cook Book—15c (postpaid). Carnation Company Limited, Abbott St., Vancouver.

RADIO—listen to the "Contented Hour" every Monday night. See your local newspaper for stations and time.

## CARNATION CUSTARD PIE

3 eggs, 1/2 cup sugar, 1 1/2 cups Carnation Milk diluted with 1/2 cup water, 1/4 teaspoon salt, 1/4 teaspoon mace or nutmeg or sugar water, 1/4 teaspoon salt. Stir eggs and sugar together until well mixed. Add milk and salt and stir again. Turn into pie pan lined with unbaked pastry. Bake in moderate oven (450°) for 10 minutes. Lower temperature to 325° for 30 minutes. When pie is baked, sprinkle spice on top.

## Clubwomen's News

All notices intended for publication in this column on Saturdays must be written and handed in not later than Friday morning.

Mrs. Donald Black, wife of a medical missionary in Manchuria, spoke to members and friends of the W.M.S. of Fairfield United Church yesterday afternoon following a luncheon held in the schoolroom. She told of their work in Manchuria and related interesting incidents. Mrs. Gerald Green, president of the society, was in the chair and introduced the speaker, who was accorded a vote of thanks by Mrs. W. H. Yardley. Rev. Nor-

man Crees led in prayer and Miss Isabel Pike gave pianoforte solos and Miss Estelle Clarke sang.

The Gleaners' Mission Circle met at the home of Mrs. A. Hunkin, 1340 Coventry Street. Plans for the fall term were discussed, followed by the devotional, which was taken by the president, Rita Millhouse, taking the solo part, led in the singing of "The Old Rugged Cross." At the close the group made a presentation to the treasurer of the circle, the former Marjorie Morris, now Mrs. W. Smith. Recognition also was made to the hostess's mother, Mrs. Harkness, a senior member

of the W.A. Refreshments were served by the hostess. The next meeting will be held on October 18 at the home of Mrs. T. Ross, 156 Maddock Avenue.

## Hungary Interns Polish Soldiers

By ELMER PETERSON

VERECZKE, Hungary (At the Polish Frontier) (AP) — Final internment of thousands of Polish soldiers and officers, routed by the German and Soviet Russian invasions, was started today here on Hungarian soil.

Meanwhile, German units consolidated their occupation of frontier points. As Poles moved down one side of the Carpathians the conquerors of Poland climbed the other toward the strategic border passes.

Reports on how the Germans and Russians would divide the Polish Carpathians were still confused here. Generally Hungarians believed the division would be about equal, with the Russians taking the two large passes which link northeastern Hungary to Poland.

Refugees coming through the Carpathian passes brought tales of wild rule over a small section of Poland by roving bands of Ukrainians whose signal for action apparently was the start last Sunday of the Russian occupation.

There were stories of day-long battles between Ukrainians and Polish police, of Poles and Jews alike killed in a wave of looting and destruction which completed the havoc started by German bombing planes. Entire villages were said to have been burned.

Polish officers arriving on Hungarian soil told of escaping from between the closing jaws of the German-Russian vice only to come to small villages which "dripped with blood" from the activities of the terrorist bands.

How the terrorists obtained their arms and ammunition was a mystery.

There was no noticeable apprehension in Hungary's highland province of Ruthenia—formerly part of Czechoslovakia—despite the nearness of German and Soviet armies. There was no obvious reinforcement of the Hungarian frontier guard beyond the strength needed to control the influx of Polish soldiers, but it was taken for granted Hungary was ready for any eventuality.

### BRENTWOOD W.I.

An enjoyable afternoon bridge and tea party was held on Wednesday afternoon, when Mrs. S. P. Moody and Mrs. G. V. Williams entertained at their homes at Brentwood Bay. Six tables of bridge were in play. First prize was won by Mrs. A. Guy, second by Mrs. J. Roberts and the consolation by Mrs. E. Lee. The long tea-table was covered with a lace cloth and a bowl of pompon dahlias formed an attractive centerpiece. Mrs. H. Kennaird and Miss Jean Williams assisted the hostesses in serving tea and Mrs. W. Dempster was in charge of the tickets. The proceeds are in aid of the Brentwood Institute funds. A bridge party will be held in the Institute Hall on Saturday, September 30, at 8 p.m. Mrs. L. Hafer and Mrs. A. R. Anderson will be the hostesses.

### GARDEN CITY

The September meeting of Garden City United Women's Association was held Wednesday afternoon at the home of Mrs. R. A. Scott, Jasmine Avenue. Mrs. A. P. Fryatt presided. Reports were presented by Mrs. W. Armstrong, secretary, and Mrs. W. A. Hoy, treasurer. Arrangements were made for a Thanksgiving social to be held October 4 and a bazaar during the early part of November. A visiting committee for the month was elected, including Mesdames C. Alexander and W. A. Hoy. Arrangements were made for the next meeting, to be held at the home of Mrs. W. P. Brown, Whiteside Road.

# Experts Think Louis Slipping

## Sports Mirror

By PETE SALLAWAY

JOE LOUIS settled his score with Bob Pastor Wednesday night. The colored heavyweight champion, who has defended his title more times since he mounted the throne than any other monarch over such a short period of time, took the former New York college football star apart for 10 times and then finished him off in a hurry in the 11th heat.

Although many will disagree, we are of the opinion Louis was just giving Pastor a little extra punishment by taking the fight as far as he did. The negro boy from Detroit was no little put out when Pastor ran away for 10 rounds, the last time they met, to remain on his feet until the finish, although he did drop the decision by a city block. We are not trying to take anything away from Pastor, because he showed plenty of courage, but still hold to the opinion the champion could have ended the affair much quicker than he did.

As it was the dramatic finish in the 11th left majority of the ringers and radio audience stunned. At that stage Pastor seemed to be showing to his best advantage. During the eighth, ninth and tenth rounds the New York challenger had stood up to Joe and traded blows with him. Then in the flash of an eye it was all over and another knockout was in the record books for the deadpan scrapper from the automobile centre.

We notice where Canadian rugby football and soccer are both scheduled to make their season opening on the same afternoon, September 30. The twin engagements will feature inter-city competition, Victoria vs. Vancouver. Such an arrangement is certainly not going to do either sport any good. Both will suffer. There is only a certain percentage of sports followers in this city, and it means they will be divided between the two parks. This city cannot support two major attractions the same afternoon.

Backers of the Canadian football squad are making a fine effort to revive the sport in Victoria this season. They have spent months making their preparations and have received splendid co-operation from the players. Their opening was announced weeks ago. It seems a shame that the soccer people should step in and schedule their first intercity match the same day.

Officials of the two sports should get together and arrange their schedules to eliminate all conflicting dates. After all, the footballers have eight months at least, in which to run off their matches, while the Canadian code players will be in action for a little over two months. That alone should make it easy for the two organizations to iron out this difficulty.

Sport in Victoria this winter will be under a big enough handicap, with many ranking athletes out of action through army and naval service, without different branches attempting to promote major attractions on the same day. That is not the spirit of co-operation, and the leaders should realize it without much persuasion.

## BOXING

BALTIMORE — Nick Fiorentino, 214, Philadelphia, outpointed Marty Gallagher, 210, Washington, ten.

GAREFIELD, N.J. — Pat Coniskey, 200, Garfield, knocked out Tony Celli, 188, Worcester, Mass., two.

By GAYLE TALBOT

DETROIT (AP)—Even the expert observers of fighting men—and plenty of others—are saying that Joe Louis is slipping, that soft living has dulled his aim and that he no longer is the Brown Bomber of a year ago. They say they saw the symptoms in the course of the Negro's fight with Bob Pastor night before last. They don't think the "old" Louis would have let any man survive five knockdowns in the first four minutes of fighting and then stick around until the 11th stanza before going down for good.

So I asked Jim Braddock, the man from whom Louis won the title a little over two years ago. "Get this," said the former champion. "Joe is the greatest fighter who ever entered the ring. Why should he be slipping at 25?"

"No, I saw his mind working. When Pastor survived those first two rounds Louis decided to wait and nail him. After all, that Bob can take a good punch. And he's tough to hit, because he can move both ways. So Joe didn't waste many punches. He just waited, and the next time he hit Pastor that was the end of it."

## HAD NO PLANS

I asked Louis yesterday if he had planned beforehand to use only his right on Pastor this time.

"No," he said, "I hadn't planned anything. But after we started it seemed like the best hand to use."

Joe was sitting around a hotel ballroom and watching amiably yesterday while the fight crowd kidded Joe Jacobs, manager of Tony Galento. They were telling Joe, a master celebrant, that in the uncertain small hours after the fight he had agreed to let Tony fight Pastor this winter. Joe screamed denials. Tony wouldn't fight anybody, he said, until he meets Louis next June.

Joe Gould, who manages Tommy Farr, came over and told Louis.

"Don't pay any attention to these guys, Joe. Your next big fight's going to be with Farr. He's in the British Air Force now. Just wait until he shoots down a couple of German planes and makes himself a hero. Will you fight him then, Joe?"

"Sure," said Joe, "I'll fight him. But not in airplanes, Mr. Gould." That isn't made up. The champ said it by himself.

## Title Fight

## Conn, Bettina Really Hostile

PITTSBURGH (AP)—The light heavyweight king, Billy Conn, made it plain today his title defence against Mello Bettina here Monday night will be a grudge affair.

All because of a harmless appearing interview in which both took part. The former champ from Beacon, N.Y., upset the applicator when he predicted in the broadcast interview he would knock out Billy. The Pittsburgh Irishman, sitting alongside the Italian, almost fell off his chair.

The remark made Billy red hot. Throughout an interview he brought the talk back to the same subject.

"That wise guy said he'd knock me out," he fumed. "I'll show him who he'll knock out—he won't win a single round. Conn's desire for vengeance made it unanimous, for Bettina is sore over losing the title in his first defence of it.

## Horse Racing

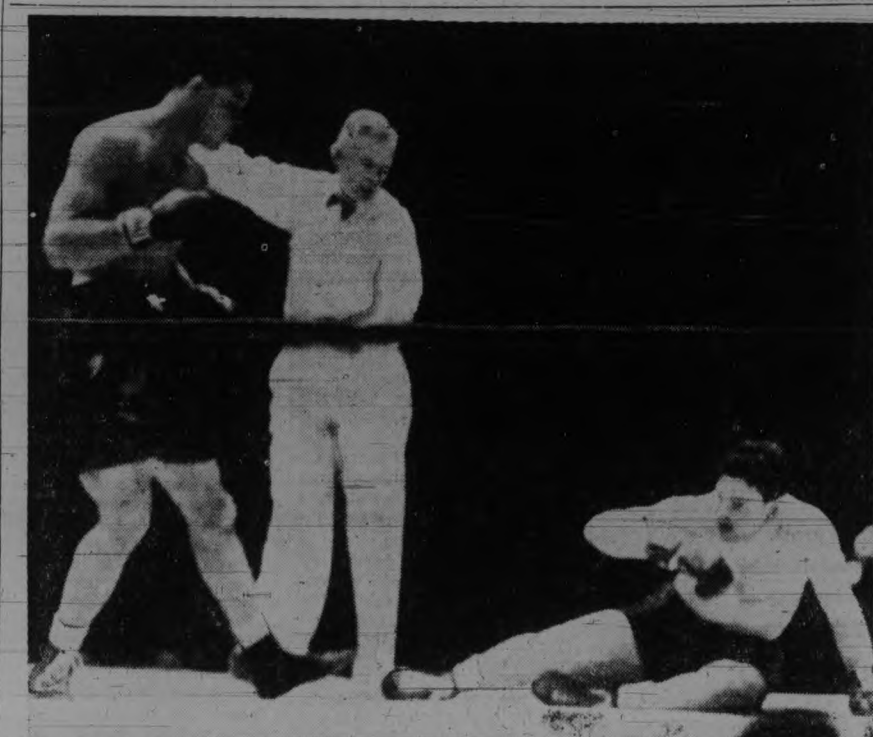

## Track Record Set

The Wentworth Stable, owned by A. Sturrock of Victoria, uncovered a real speedster at Willows track yesterday in the five-year-old gelding Pandmint, by Easter Bells out of Dosabo.

Pandmint cracked the track record for a mile wide open when he won the feature purse race by a clear two lengths from Mrs. F. Beban's Flying Heir. The official time was 1:39 2-5, which is a second and two-fifths faster than the old mark set by Big Pine.

Pandmint was given a carefully-judged ride by jockey Emil Sporri. After being sent to the top leaving the back-stretch he had no trouble holding the strong closing bid of the well-favored Flying Heir. The winner returned 14 to 1 in the mutuels.

Four lucky ticket-holders split the daily double pot when Margie Bell, at 7 to 1, and Firm Mint at 6 to 1, copped the second and

PASTOR DOWN IN FIRST ROUND—In Detroit Wednesday night Joe Louis retained his heavyweight boxing championship by scoring a knockout over Bob Pastor, former New York college football star, in the 11th round. Although beaten Pastor proved game and came back strong after going down three times in the first round. The above picture shows Bob on one of those visits to the mat with Referee Hennessey waving Louis to a neutral corner.

## Table Tennis

## Cecil Lewis Is Named President

Cecil Lewis, a player of merit, was last night elected president of the Victoria Table Tennis Association at a well-attended annual meeting held in the Y.M.C.A. Lawrie Greenwood was chosen vice-president and Miss Kay Elston secretary. Bob Crombie was the choice for corresponding secretary.

The meeting decided to usher in the season Monday, October 2, when a pair of first division squads will swing into action. It is the intention of the league to organize three divisions for the 1939-40 season, and judging from the enthusiasm displayed at the meeting there will be more clubs entered than last year.

The Crystal Garden will again be the headquarters of the league and will be available for play each week-day evening. League fixtures will be played Tuesdays, Wednesdays and Thursdays, and Fridays have been set aside for handicap tournaments. Practice sessions will be held Saturdays and Mondays.

First division entries will close October 6. Filing of entries in the two lower divisions will close October 13. Entries should be filed with officials as soon as possible.

## FOOTBALL WORKOUT

Victoria Football Club members, who will represent this city in the Pacific Coast League this season, are asked to turn out for a practice tomorrow afternoon at 2:30 at Heywood Avenue.

The following players are requested to be on hand: Moss, Rowe, Wilkinson, Cook, R. Bell, Leggett, H. Thompson, R. Barnes, C. Restell, G. Robbins, C. Robbins, Cooper, J. Okell, L. Kennedy, G. Bell, Worswick, Cosier, R. Okell, Raeside, Hope, Condon, H. Sage, N. Morgan, Robinson, G. Barnes, Dallimore and A. Stewart.

## Box Lacrosse

## City Finals Open

Rival supporters are expected to be on hand in full force at the Willows Sports Arena tonight when Alert Service and Conservatives, senior stickhandling brigades, clash in the opening game of the preliminary playoff for the city crown.

This series is scheduled over the best-of-three game route, the winner taking on Manager Ted Menzies' formidable James Bay crew in the final.

During the season these two aggregations have provided many evenings of hectic entertainment for crowds of 500 and 600 in the auditorium, with many encounters being decided by the odd goal.

Manager George Corness of the Conservatives was not sure to day whether he would be able to field his strongest squad. Some of his best players are in the army and navy, and he has had no way of learning whether they will be available. Manager Harry Sargison of the Alerts, on the other hand, will have an almost full-strength squad in harness. Henry Cockin is the only man not available. He will be replaced by Harry Harding.

Prior to the main battle tonight, McLean's Bakery and Owl Drug, juvenile squads, will meet in the second game of their preliminary playoff. Macs won the first game. Winner of this series meets Saanich Young Liberals in the final. First game will start at 7:15, with the seniors facing off at 8:45.

## Line-ups follow:

Conservatives—M. Maggs, A. Entwistle, G. Coleman, R. Baker, W. Mair, R. Singleton, J. Alexander, K. Ludbrook, J. McSweeney, E. Thompson, W. Lawrence, G. Harmston, C. Ovchivack, T. Capney, D. Hodgkinson and C. Corness. The above players are asked to make every effort to attend.

Alert Service—Gawley, Langdon, McDonald, Holyoak, Price, Plater, Brown, Harding, Berry, Bischlager, Pickford, Williams, D. Coates and N. Coates.

McLean's — Taylor, J. Lott, Porter, Watson, Ludbrook, Braithwaite, Holmes, Popham, G. Lott, Bishop, Penkith, Jones, Lea and McCaghey.

## Johnny Houbregs Will Quit Hockey

SEATTLE (AP) — John Houbregs, best defence man of the Seattle professional hockey team, said yesterday he was retiring from play.

His announcement means that if and when the Pacific Coast League continues play in the 1939-1940 season, the Sea Hawks will need a new defence line. Pat Egan, Houbregs' defence mate last season, was recalled recently by the New York Americans.

COLLECTS FIGHT PAYOFF IN PENNIES—"Curly" Rutledge, well-known barber, won a wager from Dave Lewis, former prominent local scrapper, on the Joe Louis-Bob Pastor heavyweight fight Wednesday night, and yesterday he collected the hard way. Lewis stood outside his friend's shop and threw 100 pennies on the sidewalk and as Rutledge was busy picking them up the Times cameraman snapped the above picture. He didn't lose a cent.

## Bike Racing

## Duval, Hellier In Feature Win

Bicycle racing followers were treated to some real snappy riding last evening when the Victoria Cycle Racing Club staged another popular program at the Cyclo-drome. The meet was presented under a newly-installed lighting system.

One of the features of the evening was the courage shown by F. Hellier, younger riding partner of ace Neil Duval, in the five-mile team race, main event on the program. Young Hellier went into a breath-taking spill during the third sprint of the contest when he bumped Eric Whitehead. He got up with a badly-skinned and bruised right leg and hip and continued in the race. He fell again near the finish of the event, but had helped his partner to win the race with a total of 28 points.

The second-place team of Harold Whitehead and R. Bell collected seven points, taking the first sprint and finishing second in two others. In third place was the duo of Eric Whitehead and R. Smith. They were a lap behind the first two teams.

Another bad fall was seen during the race when Charley Warren and Harold Whitehead tangled on the finish laps of the final sprint. Both riders came out of it with only scratches and bruises.

Pat Hoole showed his superiority in a Class "B" one-mile contest, with a sprint every lap, when he finished first with a total of 10 points. W. George was second with 4 points and D. George placed third. The time was 2:14 4-5.

Eric Whitehead rode a hard race in the 36-lap point-to-point event on the program when he finished first over Neil Duval with 19 points. Duval collected 14 points for the second place and Charley Warren was third. The time was 7:50.

## SPRINT A THRILLER

A six-lap sprint staged gave the fans a big thrill with four of the city's leading riders fighting it out all the way. Pat Hoole won the race, coming from behind on the last lap over Eric Whitehead. Neil Duval was third. The time was 1:09 2-5.

## COMPLETE RESULTS

The complete results follow: Twenty-five-lap point-to-point, under 18 years, sprint every five laps—1, R. Bell, 15 points; 2, R. Warren, R. Smith and W. George tied with seven points each. Time, 5:35 1-5. Six-lap sprint, under 15 years, selected—1, N. Sinclair; 2, J. Burnett; 3, C. Davies. Time, 1:20. One mile, "B" Class riders, sprint every lap—1, Pat Hoole, 10 points; 2, W. George, 4 points; 3, D. George. Time, 2:14 4-5. Thirty-six-lap point-to-point, sprint every six laps—1, Eric Whitehead; 2, Neil Duval; 3, Charley Warren. Time, 7:50. Novice miss and out—1, R. Bell; 2, R. Warren. Time, 1:51. Five-lap handicap, under 15 years—1, B. Carlow; 2, C. Davies; 3, N. Sinclair. Time, 1:05 3-5. Six-lap sprint—1, Pat Hoole; 2,

## Canadian Rugby

## Ottawa Banks On Line Power

OTTAWA (CP)—Bulk and boot give Ottawa Rough Riders two potent weapons to carry into the 1939 campaign for the Interprovincial Rugby Football title.

The brawny Ottawa wingline must look like forts to the opposition with such huskies as Tiny Herman, Bunny Wadsworth, Curly Moynahan, Dave and George Sprague and others digging in for a charge.

A front line like that is a great comfort to the kickers behind it who need protection until they can get their spirals aloft—and Riders have plenty of boot in the backfield.

Eddie Rocano, last year's punting mainstay, can still boom them out, and he has two understudies, Sammy Sward, a recruit from Toronto, Balmy Beach of the O.R.F.U., can kick and plunge with distinction. The other newcomer is Arnie McWaters, a smart quarterback just down from Sarnia Imperials. Arnie can boot the ball 50 yards without trouble, and generally strengthens the backfield.

The Riders steamrollered Balmy Beach 32 to 12 in an exhibition here last Saturday—largely through their power in the air and along the firing line. The front rank shrugged off the best plunging attacks Balmies could muster and stood like a breakwater while Ottawa backs were firing passes or getting away punts.

Orville Burke is the key man of Ottawa's passing attack. He dropped a 45-yard-toss right into Wilf Tremblay's hands behind the Toronto goal line to cap a brilliant display last Saturday.

## Juniors to Try Out With Amerks

BRANDON (CP)—Three members of the Brandon Elks Hockey team, Western Canada junior finalists last spring, will be out with the New York Americans at the National Hockey League team's training school opening in Port Arthur early next month. Glen Richardson, defence, Chuck Taylor, centre, and Bus Wycherley, forward, have been invited to the training camp.

Eric Whitehead; 3, Neil Duval. Time, 1:09 2-5. Five-mile team race—1, Neil Duval and F. Hellier, 28 points; 2, Harold Whitehead and R. Bell, 7 points; 3, Eric Whitehead and R. Smith, lap behind.

## Dick Barrett Hurls Fine Three-hitter

With Seattle and Sacramento leading their respective opponents two games to one, the four teams in the Pacific Coast Baseball League Shannessy playoffs headed for new parks today to finish the four-out-of-seven-game series.

San Francisco, which won its first game of the play-off from Sacramento at Seals' Stadium last night 2 to 1, resumes play at Sacramento tonight, while Seattle and Los Angeles are en route south to finish up at Los Angeles. They won't play until Sunday, when a double-header is billed.

Seattle's Kewpie Dick Barrett and San Francisco's rookie southpaw, Larry Powell, won their respective games last night, each letting his opponent down with three hits.

Seattle won its second straight from Los Angeles 7 to 1, bunching five of the runs in the seventh and eighth frames off Fay Thomas, who pitched the route for Los Angeles and gave up nine hits. Thomas contributed to his own downfall by issuing eight walks.

San Francisco scored its winning run in the seventh when Al Wright came home on Dominic DiMaggio's single. Sacramento tallied first in the fourth and the Seals tied it up in the sixth.

## MAJOR LEAGUES

Cincinnati's championship calibre is going to get a two-day test from Pittsburgh Pirates today and tomorrow, a pre-heating process that will have a lot to do with the temperature of the Reds' series next week against St. Louis Cardinals.

The Reds must play four games in two days without the services of their twin pitching stalwarts, Bucky Walters and Paul Derringer, whose pitching turns don't come till the first of the week. With only a 2½-game insulation between them and the challenging Cards, the whole complexion of the National League race could be changed.

The Reds must win or move (Turn to Page 13, Col. 5)

H. T. JAFFRAY, General Manager

## Hospitals to Meet Next Month

The British Columbia Hospitals' Association will hold its annual meeting in Victoria, October 23, instead of in November as previously scheduled.

Date of the meeting was brought forward so that Dr. Harvey Agnew, president of the American Hospitals' Association and secretary of Canadian Hos-

pitals' Association, who plans a visit to British Columbia next month, may address the gathering.

## SHOW MUST GO ON

SYDNEY, Australia—A storm in the Australian light temporarily interrupted the rehearsal of London actors aboard when a lurch of the ship shot one of them through a panel. But the next lurch shot her back, and the rehearsal continued.

## Plan Convention Of Sunday Schools

A United Church Sunday school convention will be held October 6 at Centennial United Church. There will be afternoon, supper and evening sessions. This convention will be under the direction of Rev. David Forsythe and Roy Belford, visiting executives from eastern Canada. They will be assisted by Rev. Horace Burkholder of Vancouver. All Sunday

school teachers and boys' and girls' leaders will be welcomed from churches of any denominations.

## LEAFS IN NORTHLAND

TIMMINS, Ont. — Northern Ontario will see a National Hockey League team for the first time when Toronto Maple Leafs visit her to open the McIntyre arena. The team will probably divide in two for an exhibition game.

## SAANICH DISCUSSES BUS SERVICES

The Saanich Council last night refused to accept changes on the Sidney, West Saanich and Cordova Bay routes which the Vancouver Island Coach Lines instituted on September 15 on the change over from summer to winter schedules.

In refusing acceptance of the new schedules the council indicated it was going further into the transportation issue with a view to having at least the same or better service for the municipality than existed in 1930.

Principal complaint was in regard to the first run from town to Sidney in the morning on which the Royal Oak, Lake Hill and Prospect Lake mail was carried. S. A. Vantreigh and Brian Hoole appeared before the council to protest this change, claiming mail was delayed three quarters of an hour under the change.

Councillors G. A. Austin and L. H. Passmore, Wards Four and Seven respectively, said while the services in some parts may not be as good as they were formerly, they were better in their wards. They said they had taken the question up personally with officials of the transportation company and had received satisfaction in arranging agreeable schedules.

## 25 Years Ago

SEPTEMBER 22, 1914

LONDON — The British warships Aboukir, Hogue and Cressy have been sunk in the North Sea by submarines, according to an announcement given out by the official bureau this afternoon.

WASHINGTON—On complaint of the British Embassy the Department of Agriculture has begun a search for a mysterious wireless plant supposed to be operating in the mountains on the Pacific Coast. Information furnished by the department is vague, but apparently the plant is busily engaged in sending uncensored messages.

OTTAWA — It is understood that by January Canada will have abroad, either on the fighting line or in Great Britain, upwards of 40,000 men. The 30,000 to be sent from Valcartier probably will go to a depot in England, from which they will be sent to the front when thoroughly efficient.

RIO DE JANEIRO—The crisis in the local coffee situation is becoming aggravated as a result of the closing of European markets. The government is considering means of protection. It is reported that Germany is negotiating with the state of Sao Paulo for the purchase of its stock of 3,200,000 sacks at prices quoted now in Hamburg.

WAR NEWS—Chicago News: Almost all the European monarchs are kinsmen, but this is the biggest family row in history.

## French Hold 80 Nazi Towns

By CHARLES FOLTZ

BASEL, Switzerland (AP)—French army units—striking a wedge toward the heavily-manned Siegfried Line—were said today to have occupied more than 80 German towns and villages in the Saar-Moselle triangle northeast of the French-German-Luxembourg border junction.

A German "buffer line" in front of the West Wall defence was reported resisting the methodical advance of French troops into the apex of the Saar-Moselle triangle.

French pressure along the Moselle, which separates Luxembourg and Germany, was being increased, observers said. Word reaching Basel indicated the German defenders had been forced back from the key rock—a strategic pinnacle of the western bank of the Saar River.

The rock was fortified as an advance unit of the Siegfried Line—a watchdog over smaller defence works in the Saarburg forest.

## ARTILLERY WATCHED

Meanwhile, observers in Switzerland watched news of artillery action, confident the big guns of the Maginot Line would thunder in the first blows to any French and British effort to crack the Siegfried Line.

Fighting along the Saar River reached a temporary standstill last week when French moved up to positions from which they could advance little farther without a major offensive against the Siegfried Line. German counterattacks apparently failed to budge the French from their new positions.

East of Bitch, toward the Rhine valley, French long-range guns were said to have blasted pillboxes, trenches and mine fields in front of the West Wall forts between Pirmasens and Zweibrücken and shelled railways and highways linking this section to the key town of Kaiserlautern, behind the forts.

## Price Investigation In Alberta

EDMONTON (CP)—Sittings in Edmonton and Calgary in investigation of meat and butter prices by the Alberta price spreads board were announced today by W. D. King, chairman of the board and deputy minister of trade and industry.

Investigation into meat and butter prices will be continued at the Edmonton sitting next Monday, when the board will meet with representatives of the meat trade and butter manufacturers. Representatives of the chamber of commerce also will attend.

Next Thursday the board will hold its first sitting in Calgary, where it will meet representatives of butter manufacturers and also the Calgary board of trade.

In its preliminary investigation, the board is compiling information as to stocks and prevailing price spreads. This information is required for the consideration of any future situation regarding prices as such may arise, it was explained.

## Germans Quiet About U.S. Moves

BERLIN (AP)—President Roosevelt's request to the United States Congress to lift the embargo in arms shipments to belligerents drew no official German response today. Newspapers did not mention it.

Revision of the United States' neutrality law would be unwelcome news to Germany although it was generally believed that, as far as possible, military planners had anticipated such a movement. Unofficial opinion, however, noted with satisfaction that the President had expressed determination to keep the United States out of war.

## THE WEATHER

VICTORIA, 5 a.m. today—Ship reports are not available off the British Columbia coast, but pressure appears low west of the Queen Charlotte Islands. The weather has been fine and warm throughout this province. Scattered showers have occurred over the prairie provinces.

Victoria—Barometer, 30.11; temperature, max. 73, min. 51; calm; clear. Vancouver—Barometer, 30.11; temperature, max. 69, min. 47; wind, 3 miles E.; clear.

## Former Victorian Returns From Rome

Rev. Father Alexander Tourigny, S.J., formerly of Victoria, who returned to North America this summer from two years of special study at the Gregorian University in Rome, has been added to the faculty of Mount St. Michael's scholasticate, Spokane.

school in Victoria at St. Louis College before joining the Society of Jesus. Another old St. Louis College boy, Rev. John Taylor, S.J., is now nearing end of 13 years of study at a Jesuit college in California. He will be ordained to the priesthood next summer in San Francisco and will celebrate his first mass in his parish church, St. Joseph's, in Seattle, where his mother, Mrs. William Taylor resides.

## BAKE A New CAKE

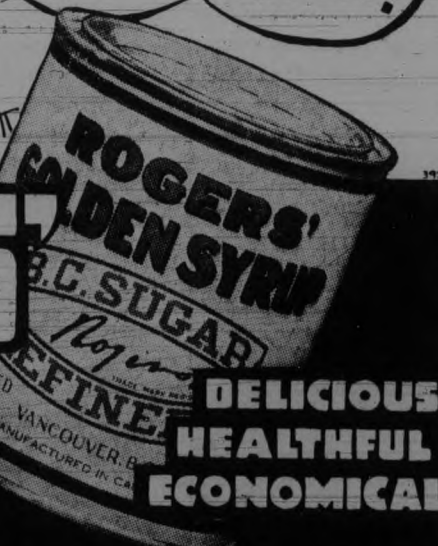

## DEVIL'S FOOD CAKE

3/4 cup butter  
1 cup Rogers' Golden Syrup  
1 cup sugar  
4 eggs  
1 cup hot mashed potatoes  
2 ounces chocolate, melted  
7 tablespoons milk  
2 cups flour  
3 1/2 teaspoons baking powder

Write for Your Free Copy Rogers' Golden Syrup Recipes to: B.C. Sugar Refining Co. Ltd., Vancouver, B.C.

Beat butter to a cream and add 1 cup of sugar. Beat yolks of eggs until light and beat into them the 1 cup of Rogers' Golden Syrup. Then combine mixtures. Add to this mashed potatoes and melted chocolate. Then add alternately the flour, whites of eggs beaten stiffly. Bake in a moderate oven for 1 hour or until done.

WHEN YOU'RE TIRED OF YOUR OLD "STAND-BYS", TRY A ROGERS' GOLDEN RECIPE!

ROGERS' GOLDEN SYRUP  
DELICIOUS HEALTHFUL ECONOMICAL  
MANUFACTURED IN BRITISH COLUMBIA

## your Bodyguard

Keeps you FIT in three ways

Does "acid stomach" bother you? Is your elimination faulty? Has this sluggish acid condition "got you down"? Start taking Eno's "Fruit Salt" before breakfast! This proven bodyguard not only neutralizes "acid stomach" AND restores natural elimination but IN ADDITION effectively strengthens your resistance by reinforcing your alkali reserve. One teaspoonful of Eno has systemic alkalinizing value equal to 8 ounces of orange juice.

Eno contains no sulphates, no harsh mineral salts, no sugar, no analgesic. Eno is pure, safe, pleasant. There is nothing just as good. CAN/39

ENO'S 'FRUIT SALT'

## Car Finance Appeal Opens

The appeal of General Securities Ltd., Vancouver, against a judgment of Mr. Justice Fisher awarding Don Ingram Ltd. \$8,000 damages for breach of contract in automobile financing was opened by Alfred Bull, K.C., before the Court of Appeal today.

C. H. Locke, K.C., assisted by T. E. Ellis, appears for the respondent, Ingram.

In a short review of the case, Mr. Bull stated Ingram held the sales agency for Studebakers and was financed by the General Securities, whose approval was required for all car orders. The latter also engaged in retail financing for cars handled by Ingram.

In 1937 the former, allegedly in agreement with a Jack McDougal, representing the General Securities, placed an order for 27 cars which were to be shipped from Toronto by water through the Panama Canal, in preference to shipment by rail.

Mr. McDougal died shortly after the agreement, a verbal one was made. Breach of contract was admitted, Mr. Bull stated. The point at issue was the principle involved in assessing damages.

The trial judge allowed Ingram \$2,000, being the profit he would have made on the cars, another \$5,000 for loss of the Studebaker agency and \$1,000 for loss sustained by the plaintiff in failing to realize the full sales amount he would have secured for his business had he retained the agency.

A meeting of the Victoria and Island Branch of the Canadian Authors' Association was held last night at the home of Mrs. Sydney Wood, 2321 Windsor Road. It was decided to continue organizing and as usual a winter meeting open to the public will be held in the Empress Hotel. It was also decided to donate books and magazines for the use of soldiers. Congratulations were extended to Mrs. Myrtle Lane on the broadcast of her play over the CBC recently.

**NEW CLUB PRESIDENT—**Arthur R. Minnis who this week was unanimously elected president of the Gyro Club, succeeding R. H. Challoner. Mr. Minnis and other new officers will be installed at the annual installation dinner next Friday.

## Dr. H. B. King Made Chief Inspector

Appointment of Dr. H. B. King as chief inspector of schools for British Columbia was announced today by Hon. G. M. Weir, Minister of Education.

Dr. King, who has been technical adviser to the department on revision of the school curriculum for the last four years, will take over the co-ordination of inspection and supervision of schools. His appointment does not involve an increase in personnel, the minister said.

"The work of revising the school curriculum, which has been carried on for some time, is practically completed, although minor adjustments will be made from time to time as experience gained from working out of the program in the schools may suggest," Dr. Weir said.

## Church Needed Boys' Brigade

In addressing a dinner meeting of ex-members of the Boys' Brigade and local church leaders in Spencer's dining-room last evening, John A. Gair of Toronto, president of the Dominion Council of the organization, said that the churches of Canada were far from being adequate in their training programs for youth.

The Boys' Brigade was concerned in the problems which faced boys and young lads today, and felt that it had a definite contribution to make in helping to meet the problems.

The inspiration behind the Boys' Brigade was religious without being denominational and from that reason its members felt that much good would result from the inculcation of its ideals upon the characters of the boys.

Less than 20 per cent of boys ranging from 12 to 17 years of age in Canada belonged to any organization, church or otherwise, even though there were a number of boys' groups catering to the needs of young fellows of that age limit, Mr. Gair said.

Only a small number of the boys who attended churches were getting adequate group training, he continued.

Many churches of recent years had experienced the Boys' Brigade to be a satisfactory organization around which to build their boys' training program.

There must be a place for the organization in Canadian life and the Canadian church, he said, when realizing that the Boys' Brigade had only 10 companies in 1935 in Canada, but had 74 companies at the present time.

Under the leadership of Major F. V. Longstaff a general discussion was held at the close of the address and in all probability an effort will be made soon in Victoria to organize companies of the brigade in the churches.

## CITY SEEKING APPEAL COSTS

The city's application for costs incurred in the appeal to the Court of Appeal on the counterclaim in the Victoria-Oak Bay water case, was heard by the court today. Judgment was reserved until next Tuesday.

H. A. McLean, K.C., for the city, contended Victoria had been substantially successful in the appeal and was consequently entitled to costs.

C. H. Locke, K.C., for Oak Bay, stated the counterclaim contained three issues. He contended Oak Bay's case had been sustained on two.

He suggested costs be divided equally on the appeal. Such a procedure would leave no costs for either party.

Mr. Locke felt Oak Bay was entitled to costs on the main action below but that no costs should be granted on the counterclaim.

The Victoria Choral Union will commence rehearsals tonight for the annual performance of Handel's "Messiah." The policy of the union during the war may be discussed.

## Peter Inglis Wedding Set for Tonight

VANCOUVER — Wedding of Peter Inglis and Margaret Fieldwick of London, Eng., is announced for 8.30 tonight here.

Mr. Inglis, only son of Mrs. T. B. Inglis, Somass Drive, Victoria, is on the news staff of the Vancouver News-Herald, and is well known in Victoria, where for several years he was on the Victoria Daily Times. Miss Fieldwick came to British Columbia from England during the last summer and has been visiting friends and relatives in Victoria and Port Alberni.

## TOWN TOPICS

**Thieves who entered the De Luxe Produce Company, 933 Fort Street, last night stole 40 large packages of cigarettes and \$2 worth of gum, according to a city police report.**

**Concern over the protection of nine miles of pipeline carrying Port Alberni's water supply was voiced by Mayor W. C. Hamilton and Alderman Jones of the West Coast city, during a short conversation with Mayor Andrew McGavin yesterday.**

**Consideration of Mayor Andrew McGavin's suggestion that the federal government purchase or rent city-owned buildings when it requires office or storage space here was promised by R. W. Mayhew M.P., prior to his return to Ottawa yesterday.**

**Further submissions will be made to the Court of Appeal on Tuesday in the case of Herbert P. Winsky against David S. Tait et al. The appeal was spoken to yesterday. The case concerns disputed claims to an interest in certain Zeballos holdings.**

**Councillor W. Ellis of Oak Bay, newly-appointed organizer of the Civilian Protection Committee, announced today temporary offices had been established in the City Hall. From Monday onward the organizer will be in attendance from 10 to 12 in the morning. Telephone number of the offices is G 7111.**

**Business on Wholesale Row is quiet at the present time although several important shipments have been received within the last few days. Okanagan Macintosh Red apples arrived in a carload yesterday with a second carload today. The last car of Okanagan peaches of the season is expected tomorrow. Wine grapes from California are on the market now and a carload of grapefruit and lemons came in from the southern states yesterday. This week's banana shipment will not arrive until Sunday night.**

## Short Session Here Predicted

Political circles forecast an unusually short session of the British Columbia Legislature which opens October 31. The war is expected to dwarf most of the civil issues that ordinarily occupy the time of the legislators.

At the present there is little major legislation in sight that is likely to raise any contentious debates.

The Conservative opposition has pledged its full support to the government in measures that may be necessary to cause of the war. This may mean the elimination of minor political tactics that ordinarily occupy the time of the House.

The Doukhobor problem, however, is expected to raise a general debate, Attorney-General Wismer plans to lay the full facts before the House of the attempted eviction of several thousand Doukhobors in the Kootenay area for nonpayment of mortgage charges. He obtained postponement of a court action by the Sun Life Assurance Company to commit the Nelson sheriff to jail for failing to carry out evictions.

The provincial budget now being compiled will be guided by strictest economy in anticipation of a fall in revenues during wartime it is understood. The government may ask a substantial vote to proceed with drilling for oil in the Peace River District but otherwise will attempt to keep appropriations down to a minimum.

The session will see the first appearance in the House of Mrs. Laura Jamieson, the new C.C.F. member for Vancouver Centre. Elected in a by-election during the summer, she is the third woman member of the House and will take her seat alongside Mrs. D. G. Steeves, the C.C.F. member for North Vancouver. Mrs. Paul Smith, Burrard, represents women on the government side.

## IN TOWN TODAY

"I find everyone in Canada very anxious to maintain the commercial life of the country as much as possible, pending, of course, upon the demands that will be made on us from time to time, as the weeks and years go by," said C. E. Henderson of the Macmillan Publishing House of Toronto, who is at the Empress Hotel today with Mrs. Henderson.

Mr. Henderson looks after medical and university and college textbooks for his firm, and attended the recent convention in Vancouver of the B.C. Medical Association.

Mrs. D. B. McConnan, well known on the local amateur stage and concert platform, who has been appearing in little theatre productions in Hollywood during the last year, is visiting in Victoria, a guest at the Empress Hotel. She will return south shortly to resume acting in the movie capital.

Preston Delano, controller of currency in the United States, and Mrs. Delano are in Victoria today on their way to attend the convention of the American Bankers' Association in Seattle at the weekend. Their home is in Washington, D.C.

Mr. Delano is one of the powers behind the United States government. He was governor of the Federal Home Loan until last year, when he was appointed controller of currency.

"I've been in Victoria many times; the Pacific coast is home to me," said Mrs. Delano, who formally was Miss Ruth Small of Portland, Oregon.

Other guests at the Empress Hotel today include Mr. and Mrs. A. C. Mossler, Waseana, Holland; Mr. and Mrs. Chatterton Sim, Berkshire, England; Dr. F. S. Farney, Ottawa; Mr. and Mrs. D. K. Smith, Dundee, Scotland; Mr. and Mrs. M. Ezra and child and nurse, Shanghai; Mr. and Mrs. E. R. Bishop, Aberdeen, Scotland; Mrs. R. M. Haines, North Carolina; Mr. and Mrs. S. Cullen, Australia; W. A. Ball, Sydney, Australia; Mr. and Mrs. F. A. Carroll, Boston; Mr. and Mrs. B. D. Forster, Ridgewood, New Jersey; Mr. and Mrs. R. Grant, New York City.

## Indian Woman Lost On Coast

British Columbia Police on Vancouver Island's west coast today were searching for Rebecca George, an Indian woman reported missing from a gasboat off Zeballos.

Magistrate Thistle reported from the mining town to divisional headquarters of the provincial police here that the woman was on the boat with Geoffrey Davis of Olsen's Logging Camp. It is believed Davis got to shore. Headquarters here instructed the P.M.L. 14 to proceed to the scene from Ceepeece. No other details were contained in the police report.

## U.S. Anticipates British Orders

Great Britain and France have gold securities in the United States which they intend to spend to prosecute their war with Germany, Guy Emerson, vice-president of the Bankers' Trust Company of New York City said here today.

With Roy L. Reierson, an economist of the same firm, he spent a few hours in the city on his way to Seattle to attend the convention of the American Bankers' Association. They will return to Victoria next Tuesday with 2,500 bankers on a special day's outing to Victoria.

The world financial situation will prevent either Russia or Germany from extensive trading in the United States, they agreed, even though the U.S. Congress should legislate to leave the door open for purchase of arms and supplies by all nations.

Germany has no resources in the United States and Russia has little, Mr. Reierson said, and unless there should be some great change neither nation can draw from the United States reservoir of materials.

"If the allies are prevented by law from buying war materials in the United States, they can continue purchasing the raw products and probably will spend their resources that way," Mr. Emerson said. "Their present resources in the United States probably would last a year," adding that any trading when the present resources become exhausted probably would necessitate legislation for the extension of the credits to the allies.

He said that at present there was no evidence of any facilities by which Germany could procure Russian supplies, although some fiscal arrangement perhaps would be made should they become closer allies.

## SLASH BURNING TO GO AHEAD

The B.C. forest branch announced today that burning of slash on logged over areas of Vancouver Island, the lower mainland will be required by the government this fall in line with its forest protection policy.

Earlier the government suspended the slash burning law at the request of the Royal Canadian Air Force that the atmosphere be kept free from smoke during reconnaissance flights. The air force has now withdrawn the request.

For those who wish to burn their slash before October 1 special permits are required.

## Appeals for Red Cross Support

At the second meeting of the newly-organized, Esquimalt and Victoria West Red Cross unit under the Victoria branch held last evening in the Esquimalt United Church, Reeve Alex Lockley asked the support of all citizens in the work that the Red Cross had planned.

He said that there was no more worthwhile service that could be given by Canadians remaining home than to the Red Cross.

Appointments of the executive officers was endorsed by the meeting as follows: Mrs. J. C. Stewart, convenor; Mrs. A. S. Parkes, secretary; Miss Kate Fraser, treasurer.

It was decided that no immediate action would be taken by the unit until word was received from national Red Cross headquarters as to how local groups can best assist during time of war.

## German Prisoners Arrive in England

LONDON (AP)—A Ministry of Information communique today said "a number of German officers arrived at a prison camp in England yesterday. Other prisoners also were taken to another camp."

No numbers were given. It was recalled that Prime Minister Chamberlain told the House of Commons September 15 that some prisoners had been taken in British successes against German submarines.

A small crowd saw the prisoners arrive, but there was no demonstration. "Bad luck, old man," a woman in the crowd cried. "Not such bad luck!" one prisoner answered.

## Germans Draft Jews

BUDAPEST (CP-Havas)—The newspaper Magyar Nemzet reported today that Jews with special skills have been returned to public jobs in Germany. They wear badges with the letters "W. W. J.," standing for "Wirtschaftlich Westvolker Jude" (economically valuable Jew.)

Winner of the first prize, a gold framed oil painting, in the recent contest sponsored by the Victoria Kinsmen Boys' Band, was J. W. Lawton, 1579 Monterey Avenue.

## Reserve Decision On Fire Loss Case

Argument in the appeal of DesBrisay et al against a judgment in favor of the Canadian Government Merchant Marine et al, which opened before the Court of Appeal on Wednesday of last week, was completed today. Judgment was reserved.

The action arises over the loss by the DesBrisay interests of salmon stored for shipment in the C.N.R. dock, Vancouver, destroyed by fire in 1930.

A. Alexander, for the respondent, completed his argument yesterday afternoon. R. L. Maitland, K.C., wound up his reply today.

At the suggestion of Hon. Archer Martin, Chief Justice of British Columbia, counsel agreed to submit United States cases dealing with responsibility in the event of a fire occurring under circumstances similar to those involved in the case.

Peter Bong was fined \$25 or five days by Magistrate Hall in the City Police Court this morning on a charge of driving a car when his license was suspended. The license was suspended by B.C. Police when proof of financial responsibility was canceled by the insurance company because the accused's car was registered in other than his parents' name.

## FORD FOR KEEPING U.S. OUT OF WAR

**DETROIT (AP)—Henry Ford,** avowed opponent of war, is opposed to "any tampering with Neutrality Act," and says "only the makers of war munitions profit financially from the human misery entailed in warfare."

"The present U.S. Neutrality Act," Mr. Ford said in an interview, "was written by men who know what war means. It is fool proof; if we change it one iota we take the first step toward getting the United States into war—a war that will bring untold misery to millions of people and set back thousands of years."

"This war—if there is one—is none of our business. However, I agree with what Senator William E. Borah said the other day regarding the situation on Europe's western front." (Borah, Idaho Republican, was quoted Monday as saying that there was "something phoney" about the whole war.)

"The sole purpose of amending the Neutrality Act is to enable munitions makers to profit financially through what is nothing less than mass murder," Ford said.

Mr. Ford, who at the beginning of the war in 1914 made several efforts to prevent its spread, said his efforts in the present war would be confined for the present to "an appeal to reason."

Of the peace ship he sent abroad a quarter century ago in an effort to "get the boys out of the trenches by Christmas," he said: "I wouldn't take \$1,000,000 for what I learned on that expedition. It cost me \$500,000, but it was worth it to me."

"At that time there were relatively few people in the world educated to what war really meant. Now the world is filled with people who know all of war's horrors and its utter futility."

### Earth Has Bulge

**Once In A While**

**WASHINGTON (AP)—** The earth gets out of shape like a toy rubber balloon which is kicked by a small boy.

Instead of being a hard, tough mass of unyielding rock, the earth is actually elastic, said scientists attending the International Union of Geodesy and Geophysics.

Dr. William Bowie, acting general secretary of the convention; Dr. F. A. Vening-Meinesz of The Netherlands, and Captain N. H. Heck of the United States Coast and Geodetic Survey said the surface of the earth was continually bulging or sagging.

The pull of the moon, revolving about the earth, not only causes tides in the ocean water but also tides in the earth's crust, they declared. And, as moon and earth circle about the sun once a year, the sun exerts an additional pull on this planet's surface.

The rotational speed of the earth as it turns on its axis tends to spoil the globe's shape; the melting of its polar ice cape and concentration of water towards the equator and the shifting and constant growth of mountains, all affect the spherical structure.

Astronomers must take such factors into account in their work in locating and measuring stars and galaxies. Seamen must allow for such small errors in their determinations of ships' positions at sea, and even the boundaries of a farm or city lot can be located accurately only by corrections of latitude and longitude according to such bends of the earth.

### Prairie Farm Readjustments

**REGINA (CP)—** The government of Saskatchewan through Hon. J. G. Taggart, Minister of Agriculture, has given assurance to the federal government of fullest co-operation in gearing the agricultural economy of the province to a wartime tempo.

Every effort will be made to direct agricultural policy in the province so as to leave the farmers as far as possible in a position to follow their natural peace time pursuits at the end of the war.

Mr. Taggart explained this as meaning that efforts would be made to avoid directing prairie agriculture into a line of production for which there would be no market in peace time.

## Contact Ottawa For B.C. Orders

Immediate steps are being taken by the British Columbia division of the Canadian Manufacturers' Association to see that this province receives its share of orders to be placed in Canada by the British government to meet wartime requirements.

At yesterday's meeting of the Victoria branch, at which Hugh Dalton, secretary of the B.C. division of the C.M.A., who has just returned from England with the Canadian industrial mission, urged the necessity for manufacturers in turning out orders for essential products and materials. It was announced that a representative would be appointed to maintain contact with the British mission in Ottawa.

E. G. Rowbottom, deputy minister of trade and industry, gave assurance of the full support of the provincial government. Augmenting his statement that he believed this province would be called upon to play an even more important part than she did in the last war in aiding Great Britain and the Dominion, chiefly in the construction of ships, R. W. Mayhew, M.P., stressed the necessity of industrial efficiency and preparedness.

Mr. Mayhew pointed out that conditions which had obtained in the last war, which made production at any price and under any method permissible, did not obtain today; that Great Britain had been preparing for a long time for the present situation; and that any firm catering to either British or Canadian requirements must be prepared to do so on a basis of efficiency.

The large and very representative delegation which recently concluded a month's investigation of conditions in Great Britain, constituted one of the most important groups which had ever gone from Canada or any trade mission. He felt that the result of their efforts would not only be beneficial to Canadian

industry, but would make an important contribution for the successful prosecution of the war.

Mr. Mayhew expressed satisfaction that the urgency for the sending of qualified representatives from Canada to Great Britain in anticipation of present emergency conditions was placed before the head office of the association in May last, and that B.C. representatives at the association's annual convention in June had further emphasized the desirability of this action.

Keen appreciation was expressed at yesterday's meeting of the constructive co-operation received from Hon. W. Asselstine and his staff in assisting British Columbia industries in connection with this potential armament work. It is understood that further action by the provincial government is under consideration and may be announced soon.

## Waterfront Contract To Expire in Week

SAN FRANCISCO (AP)—With little more than a week of the present United States waterfront contract's life remaining, employers' proposals for amendments may be submitted to a negotiating committee today.

Twelve amendments to the present agreement, which expires September 30, were submitted in writing yesterday by representatives of the International Longshoremen and Warehousemen's Union. Their nature was not revealed.

Today's meeting may be deferred unless Harry Bridges, I.L.W.U. president, returns in time from Los Angeles. He left unexpectedly yesterday.

## Shipping Information Penalized in Norway

OSLO (AP)—Norway today decreed jail penalties or fines for public institutions or private persons divulging any information on arrival, departure, or positions of Norwegian and foreign ships.

## Insurance Lower As Convoys Start

NEW YORK (CP)—A moderately lower war-risk insurance rate structure on general marine insurance policies became effective today on shipments to and from the United States, with special consideration for shipments on United States vessels and shipments to and from the United Kingdom.

These reductions, according to one underwriter, reflect the belief current in marine circles here that the British convoy system is beginning to operate with more efficiency.

It was pointed out also that rates on United States vessels are now practically in line with those quoted by the British government, recently reported to have arranged to underwrite shipments of goods eastbound between New York and the United Kingdom at a rate of two per cent, regardless of the nationality of the vessel.

The rate for shipments by belligerent flag vessels to and from the United Kingdom (including Eire) and the continent of Europe, Cape Finisterre to Holland, inclusive, and Norway to north of Bergen, by the northern route, was reduced to six per cent from seven per cent, or \$7 on each \$100 of the shipment's value.

The rate on imports on United States flag vessels was reduced to 1½ per cent from 2½ per cent. The import rate on other neutral flag vessels was held unchanged at 3½ per cent, but the export rate was increased to 5 per cent from 3½ per cent.

## New C.P.R. Train Schedules Sunday

VANCOUVER — Canadian Pacific Railway's transcontinental trains in and out of Vancouver will be operated on a new schedule at midnight Sunday.

Under the new timetable, train number 3, the Dominion, will arrive in Vancouver daily at 8:35 a.m. This is ten minutes earlier than at present. Another change is in the departure time from Vancouver of train number 12, Kettle Valley express for Pentleton, Grand Forks, Nelson, Cranbrook and Medicine Hat, which will leave daily at 7:45 p.m. instead of 8:05 p.m.

Arrivals and departures of other transcontinental trains here are unchanged. Train number 4, Dominion, for Winnipeg, Toronto and Montreal, continues to leave daily at 7:15 p.m.; No. 2 for Calgary and east, leaves daily at 10 a.m.; No. 1, from Montreal, arrives daily at 10:30 p.m., and the Kootenay express, No. 11, from Medicine Hat by way of the Kootenays, arrives at 10 a.m. daily.

## Lumber Exports From B.C. Coast Increase

SEATTLE (AP)—The Pacific Lumber Inspection Bureau reported today China and Japan are getting back toward their old-time buying standard; the United Kingdom is tripling its purchases and India, Holland and Africa have increased their lumber buying from 100 to 500 per cent from British Columbia, Washington and Oregon mills.

Waterborne lumber exports last month totaled 199,083,161 board feet compared with 82,412,422 in August, 1938.

## Seaman Feared Drowned

NEW WESTMINSTER (CP)—William Roberts, 21-year-old seaman of the British freighter Bradford City, is believed to have drowned in the Fraser River here yesterday while painting the side of the vessel.

Roberts was not seen after being called for lunch at noon, and police believe he may have attempted to jump from the scaffolding on the ship's side to the wharf below, falling into the water.

Roberts, whose home is in Holyhead, Wales, had been employed on the ship for the past 18 months.

## Moffett Field Aero Research Laboratory

WASHINGTON (AP)—Moffett Field, near Sunnyvale, Calif., was selected today for development by the United States government of a new \$10,000,000 aeronautical research laboratory.

Announcement of the selection was made by the national advisory committee for aeronautics, which chose the Moffett Field site from among 54 suggested by as many communities.

Congress appropriated \$1,900,000 at its last session to start the development.

The laboratory will be the second of its type established in the United States—the first being at Langley Field, Va.

## Wheat

WINNIPEG (CP)—Comparative firmness at Chicago, combined with moderate export support to hold wheat futures prices steady throughout most of today's dull session on Winnipeg Grain Exchange. Quotations closed ¼ to ½ cent higher; October at 74½, November 75½, December 76 to 76½ and May 80½.

Export sales of Canadian wheat were estimated at around 300,000 bushels for the day. Mostly for shipment to continental Europe. Mills supplied the bulk of the action in the cash wheat market, taking fair quantities of Nos. 1 and 2 northern as well as some garnets. Export interests gave a little support to rye, oats and barley in the coarse grain pit.

Deliveries from prairie farms to country terminals continued heavy as producers unloaded 9,199,000 bushels of new crop wheat yesterday.

## Early Gains Wiped Out LAST-HOUR RALLY

NEW YORK (AP)—The stock market's war boom faltered today after an opening bulge in which gains ran to two or more points.

Overnight buying orders put the ticker tape behind for a while at the start, with blocks of 1,000 to 5,000 shares changing hands. The flurry was brief, however, and profit taking soon cut extreme advances or converted them into losses. Selling expanded just before the close and recessions of as much as a point or so predominated at the finish.

Dealings slackened to the smallest in some time, but the forenoon trading brought the day's approximate volume to 1,600,000 shares.

Steels and other war stocks, best at the get-away, were among the first to retreat. Utilities then stepped out and some managed to emerge with modest improvement. Ralls held fairly well, along with aircrafts.

United States government bonds, weak at one time, showed steady inclinations at the last. A number of low-priced rail loans improved, securities at Amsterdams tilted downward before the beginning of dealings here.

Dow Jones averages closed today as follows:  
30 Industrials 152.59 off 0.89  
26 Railroads 33.06 up 0.23  
15 Utilities 24.69 up 0.04  
Total sales 1,600,000.

## Early Gains Wiped Out LAST-HOUR RALLY

NEW YORK (AP)—The stock market's war boom faltered today after an opening bulge in which gains ran to two or more points.

Overnight buying orders put the ticker tape behind for a while at the start, with blocks of 1,000 to 5,000 shares changing hands. The flurry was brief, however, and profit taking soon cut extreme advances or converted them into losses. Selling expanded just before the close and recessions of as much as a point or so predominated at the finish.

Dealings slackened to the smallest in some time, but the forenoon trading brought the day's approximate volume to 1,600,000 shares.

Steels and other war stocks, best at the get-away, were among the first to retreat. Utilities then stepped out and some managed to emerge with modest improvement. Ralls held fairly well, along with aircrafts.

United States government bonds, weak at one time, showed steady inclinations at the last. A number of low-priced rail loans improved, securities at Amsterdams tilted downward before the beginning of dealings here.

Dow Jones averages closed today as follows:  
30 Industrials 152.59 off 0.89  
26 Railroads 33.06 up 0.23  
15 Utilities 24.69 up 0.04  
Total sales 1,600,000.

Harvest Service At  
Free Church Tonight

Services in connection with the harvest festival will begin this evening at 8 at the Church of Our Lord.

Special music has been arranged and the church will be suitably decorated. Rev. R. A. Burge of St. Luke's, Free Church of England, Vancouver, will preach.

On Sunday the rector, Rev. W. Spender Darby, will conduct the morning service and preach at the evening service at 7.30. It was previously announced Mr. Darby would preach at First United Church in the morning, but owing to the surprise visit of Rev. Dr. F. W. Norwood of Vancouver, Mr. Darby will fill the engagement later.

The harvest service tonight will

RELIEVE  
SUFFERING  
QUICKLY WITHKELLOGG'S  
ASTHMA  
RELIEF

Asthma or Hay Fever are quickly and simply relieved by Kellogg's Asthma Relief. This famous herbal preparation—sold in Canada for 60 years—has already benefited thousands.

9.50—J. Tugwell vs. R. Muir, Mrs. H. F. Hepburn.

KINGSTON, Jamaica—A grant to Jamaica to fight a banana tree blight has been announced by the British Department of Agriculture.

LIMIT ENGLISH  
SOCCER CROWDS

LONDON (CP).—Following a conference with home officials, the English Football Association announced yesterday it will give full support to competitive and exhibition matches confined to local and district groups on Saturdays and public holidays during the war.

Crowds in evacuation areas must be limited to half the capacity of the ground and in most cases must not exceed 8,000, though a ground with a capacity of 60,000 might accommodate 15,000 spectators with advance booking. Final decision rests with chief constables, who will
